*I took the two-year Culinary Management Program at Selkirk College, and I really enjoyed it. The teachers here are very understanding—they always have time to answer questions and are always willing to help. I studied alongside students from all over the world and learned about their cultures, and we all learned how to work together as a team. I got a job at Selkirk College, and I love working here. I started as a cultural assistant and now I'm working in the kitchen doing what I love: cooking. I feed all the students—it's my turn to give back. I'm so glad I decided to come to Selkirk College.*
