RETURN ON INVESTMENT

One of the most affordable post-secondary institutions in Metro Vancouver.

PATHWAYS TO UNIVERSITY

Students successfully transfer to SFU and UBC, as well as universities across Canada.

HIGH INTERACTION WITH PROFESSORS

Typically 35 students per class

HANDS-ON EXPERIENCE

Through clinical/practicum placements, applied research, Co-operative Education, capstone courses, field schools, industry or community projects, simulations, volunteer opportunities, field trips, labs and more.

CONVENIENT LOCATIONS

Reach our campuses in 30 minutes or less by SkyTrain from most of Metro Vancouver.

Our Vision

We inspire our students to do what they love and be good at it, providing educational experiences that challenge and enlighten, and open doors to lives of passion and purpose.

Academics

CERTIFICATE

Not sure what you want to study? Explore your options while accumulating credits - and without wasting time or money - with the Certificate in Academic Foundations. With this flexible, one-year credential, you can (with our help) build your own program while exploring your interests in the arts and sciences. This certificate is designed for maximum transferability to programs at Douglas College or other institutions.

You'll take part in classroom discussions and give presentations, experiment in the lab and attend lectures to develop and enhance your critical-thinking, writing, research and presentation skills, competencies that are crucial to success in your future career or further education.

EXPERIENTIAL LEARNING

- Lab experience (science)

FEATURED COURSES

The following are just a few of the many different courses you can choose from

in the arts and sciences with the Certificate in Academic Foundations.

- Studies in Fiction, Poetry and Drama
- Precalculus
- Writing for Film
- Human Physiology

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you and apply your new knowledge to your future career.

CERTIFICATE

Are you interested in the Bachelor of Science in Health Information Management (BSc HIM) program but don't have all the prerequisites? The one-year Certificate in Academic Foundations for Potential Health Information Management Applicants offers 10 university-transferable credit courses that transfer into the BSc HIM degree.

Once you complete all required courses with a minimum grade of C+, you'll receive priority registration for entrance into the three-year BSc HIM program.

EXPERIENTIAL LEARNING

- Labs

FEATURED COURSES

- Human Anatomy and Physiology I
- Management Essentials
- Business Statistics

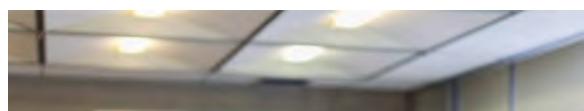

CAREER OPPORTUNITIES

Meets degree requirements and provides a pathway into the Bachelor of Science in Health Information Management program at Douglas.

CERTIFICATE

If you plan on applying to the Bachelor of Science in Nursing (BSN) at Douglas College, you will need to first complete the one-year Certificate in Academic Foundations for Potential Nursing Applicants. You'll take 10 university-transferable courses in the sciences and liberal arts that will prepare you for entrance into the BSN program.

It is important to note that completion of this certificate does not guarantee admission to the BSN program.

EXPERIENTIAL LEARNING

- Labs

FEATURED COURSES

- Pathophysiology
- Introductory Microbiology for Health Sciences
- Data Analysis in Psychology
- Human Anatomy and Physiology

CAREER OPPORTUNITIES

Meets common degree requirements and provides a pathway into a bachelor's program at Douglas and several other post-secondary institutions.

"Academic Foundations for Potential Nursing Applicants introduced me to the concepts that would form the backbone of the BSN program and my nursing career. I also found it really helped me transition from high school into college."

- Megan Scott, Bachelor of Science in Nursing

student

CERTIFICATE

If you plan on applying to the Bachelor of Science in Psychiatric Nursing (BSPN) at Douglas College, you will need to first complete the one-year Certificate in Academic Foundations for Potential Psychiatric Nursing Applicants. You'll take 10 university-transferable courses in the sciences and liberal arts that will prepare you for entrance to the BSPN program.

It is important to note that completion of this certificate does not guarantee admission to the BSPN program.

EXPERIENTIAL LEARNING

- Labs

FEATURED COURSES

- Pathophysiology
- Introductory Microbiology for Health Sciences
- Human Anatomy and Physiology
- An Introduction to Psychology

CAREER OPPORTUNITIES

Meets common degree requirements and provides a pathway into a Bachelor's program at Douglas or elsewhere

"Academic Foundations for Potential Psychiatric Nursing Applicants is a great opportunity to develop the foundational knowledge and skills needed in the health-care field."

- Pawan Leher, Bachelor of Science in Psychiatric Nursing student

CERTIFICATE

Looking for an education that centres Indigenous culture, research and knowledge? The Certificate in Academic Foundations – Indigenous Studies is designed to deepen your understanding of and relationships with Indigenous communities.

Engage with the histories of Indigenous peoples and territories while you learn about contemporary contexts. Develop academic skills in a learning community that honours traditional knowledge. This program welcomes all Indigenous and non-Indigenous students.

Courses in this one-year program cover a wide range of subjects, including Indigenous Cultures in B.C., Transforming Legislation and Policies, Global Indigenous Histories, Academic Writing and more. This certificate is a great starting point for your education and is designed for maximum transferability to programs at Douglas College or other institutions. Many of these courses can be used as electives for other programs at Douglas.

EXPERIENTIAL LEARNING

- Lab experience

FEATURED COURSES

- Indigenous Cultures of Canada
- Introduction to Astronomy
- Aboriginal Children, Youth and Families: Transforming Legislation and Policies
- Strengthening the Family Spirit - Working from Aboriginal Perspectives with Elders' Teachings

CAREER OPPORTUNITIES

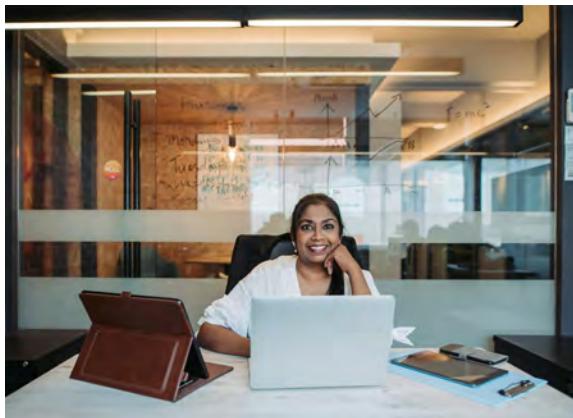

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you and apply your new knowledge to your future career.

CERTIFICATE

Take the first step toward a career in accounting with the one-year Accounting Certificate. This program provides a concentrated study of accounting and will prepare you for entry-level positions in bookkeeping, financial record keeping and budgeting.

Study full time or part time, with classes offered in the daytime and evenings.

If you are interested in going further with your accounting education you can transfer your credits into the Accounting Diploma or the Bachelor of Business Administration - Accounting programs at Douglas.

EXPERIENTIAL LEARNING

- Practice with QuickBooks, Excel and Sage 50 Accounting software

FEATURED COURSES

- Calculus for Social Sciences
- Commercial Financial Math
- Intermediate Management Accounting
- Computer Applications for Accounting

CAREER OPPORTUNITIES

Some career opportunities may require further education in addition to your credential.

- Accounting Clerk
- Accounts Payable Clerk
- Accounts Receivable Clerk
- Bookkeeper
- Customer Service Representative (Banking)
- Collection Clerk
- Finance Clerk
- Insurance Clerk
- Real Estate Clerk
- Recruiter
- Tax Preparer

BACHELOR OF BUSINESS ADMINISTRATION

Launch an exciting career in Canada's growing financial industry with a Bachelor of Business Administration in Accounting. This program's applied curriculum and work-experience component provide you with the necessary skills to secure intermediate-level accounting positions once you graduate.

You'll be qualified to work in the areas of financial reporting, taxation, management accounting and auditing.

Focus your education on one of five specializations: Data Analytics in Accounting; Economics: Theory and Quantitative Methods; Economics: Policy Analysis and Management; Economics: Global Banking and International Trade; and Business Law.

This program satisfies the entrance requirements of the Chartered Professional Accountants (CPA) Professional Education Program (PEP).

EXPERIENTIAL LEARNING

- Co-op eligible
- On-campus volunteer work with the Douglas College Business Association (optional)
- Practice with QuickBooks, Excel, and data analytics, tax return and Sage 50 Accounting software
- 500 hours of work experience (volunteer and/or paid) required for capstone course
- Business Internship Program eligible

FEATURED COURSES

- Business Mathematics

- Advanced Financial Accounting
- Corporate Finance
- Business Strategy and Competitive Analysis

CAREER OPPORTUNITIES

- Accountant
- Account and/or Billing Coordinator
- Business or Cost Administrator
- Billing Administrator
- Compensation Advisor
- Credit Loans Officer or Credit (Risk) Analyst
- Financial Controller or Analyst
- Financial Investment Advisor
- Management Trainee
- Mortgage Underwriter
- Payroll Administrator

"The BBA in Accounting at Douglas helped me combine a career in business with work in the health-care field. I'm so grateful to Douglas for inspiring my curiosity for data and helping me on my path to a career doing what I love."

- Mary Dunn, Business Finance Analyst

DIPLOMA

If you want a financially rewarding career, consider the Diploma in Accounting Management. You'll take classes in accounting, communications, computing science, economics, finance and marketing, and get hands-on practise with QuickBooks, Excel, data analytics and Sage 50 Accounting software.

We offer year-round day and evening courses to both part-time and full-time students and provide you with flexibility while earning your credential. Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

If you're interested in furthering your accounting career, you can transfer your credits from this diploma seamlessly into Douglas College's Bachelor of Business Administration in Accounting program.

EXPERIENTIAL LEARNING

- Co-op eligible
- Volunteer work with the Douglas College Business Association
- Practice with QuickBooks, Excel, data analytics software and Sage 50 Accounting software

FEATURED COURSES

- Business Mathematics
- Business Statistics
- Corporate Finance
- Computer Applications for Accounting

CAREER OPPORTUNITIES

- Accounting Clerk
- Accounts Payable Clerk
- Accounts Receivable Clerk
- Bookkeeper
- Customer Service Representative (Banking)
- Collection Clerk
- Finance Clerk
- Insurance Clerk
- Real Estate Clerk

- Recruiter
- Tax Preparer

POST-BACCALAUREATE DIPLOMA

If you want to move into accounting and have a degree in a discipline other than commerce or business administration, the two-year Post-Baccalaureate Diploma in Accounting was made for you.

You'll gain the knowledge and skills to secure intermediate-level accounting positions in financial reporting, taxation, management and auditing. Participate in our Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field, and you'll earn money while gaining experience, building your resume and getting an employer reference.

This program satisfies the entrance requirements of the Chartered Professional Accountants (CPA) Professional Education Program, which helps you pursue your CPA designation after graduation.

If you have a degree in commerce or business administration, apply to our one-year Post-Degree Diploma in Accounting instead.

EXPERIENTIAL LEARNING

- Co-op eligible
- Practice with QuickBooks, Excel, Data analytics software, Tax return software & Sage 50 Accounting software
- Volunteer work (Douglas College Business Association)

FEATURED COURSES

- Intermediate Management Accounting
- Systems Analysis and Design
- Business Statistics
- Business Strategy and Competitive Analysis

CAREER OPPORTUNITIES

- Investment Analyst
- Controller
- Audit and Compliance Director
- Tax Auditor
- Internal or External Auditor

POST-DEGREE DIPLOMA

Do you have a degree in commerce or business administration? Take it to the next level with the one-year Post-Degree Diploma (PDD) in Accounting. You'll gain the knowledge and skills to secure intermediate-level accounting positions in financial reporting, taxation, management and auditing.

Classes are offered in the daytime and evenings, and you may choose to study full- or part-time.

The Post-Degree Diploma in Accounting satisfies the entrance requirements of the Chartered Professional Accountants (CPA) Professional Education Program (PEP).

If you have a degree in a discipline other than commerce or business administration and are interested in accounting, consider the Post-Degree Diploma in Accounting Studies or Post-Baccalaureate Diploma in Accounting.

EXPERIENTIAL LEARNING

- Practice with QuickBooks, Excel, Data analytics software, Tax return software & Sage 50 Accounting software
- Volunteer work (Douglas College Business Association)

FEATURED COURSES

- Intermediate Accounting
- Income Tax
- Auditing
- Business Strategy and Competitive Analysis

CAREER OPPORTUNITIES

Some career opportunities may require further education in addition to your credential, depending on your education and experience.

- Controller
- Audit and Compliance Director
- Tax Auditor
- International or Exchange Auditor

POST-DEGREE DIPLOMA

Do you want a career in accounting but have a degree in a discipline other than commerce or business administration? Move into the accounting field with the one-year Post-Degree Diploma in Accounting. You'll gain the skills to secure junior- to intermediate-level accounting positions in the areas of financial accounting, cost accounting, financial management and more.

This program partially satisfies the entrance requirements of the Chartered Professional Accountants (CPA) Professional Education Program (PEP).

If you want to pursue further education after graduating, this program transfers into Douglas College's Post-Baccalaureate Diploma in Accounting, a program that opens doors to more senior accounting positions.

EXPERIENTIAL LEARNING

- Practice with QuickBooks, Excel, Data analytics software, Tax return software and Sage 50 Accounting software
- Volunteer work (Douglas College Business Association)

FEATURED COURSES

- Intermediate Accounting
- Income Tax
- Auditing
- Business Strategy and Competitive Analysis

CAREER OPPORTUNITIES

- Controller
- Audit and Compliance
- Director
- Tax Auditor
- International or Exchange Auditor

POST-BACCALAUREATE DIPLOMA

Earn a recognized credential that can help you get a job, take your career in a new direction and expand your earning potential with the two-year Post-Baccalaureate Diploma (PBD) in Advanced Human Resource Management.

You'll learn about HR planning, training and development; staffing, job design, performance management, compensation and benefits, employee and labour relations, workplace health and safety, and HR information management.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Management Essentials
- Financial and Managerial Accounting for Managers
- Behaviour in Organizations
- Business Ethics

CAREER OPPORTUNITIES

- Administrator, Staff Relations
- Case Manager, Disability
- Employee Benefits Manager

- Employee/Labour Relations Advisor
- Employment Interviewer or Supervisor
- HR Adviser, Staffing Adviser/Analyst
- HR Generalist - Benefits
- HRIS Specialist
- Human Resources Administrator
- Human Resources and Recruitment Officers

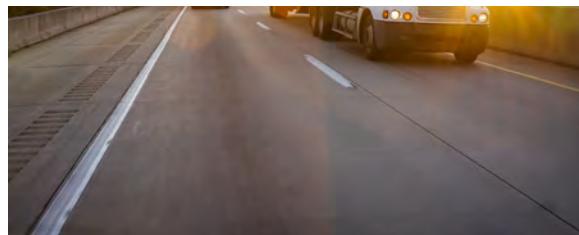

POST-BACCALAUREATE DIPLOMA

Gain internationally relevant knowledge and skills with the two-year Post-Baccalaureate Diploma in Advanced Supply Chain Management. Courses cover topics including quantitative modeling, warehousing, transportation, knowledge management, logistics, global sourcing, project management, inventory planning, accounting, law and contract, business strategy and more. You'll also gain skills in business communications, report writing, teamwork, ethics and negotiating.

You'll graduate ready to take the Supply Chain Management Professional (SCMP) designation exam, which is Canada's most sought-after supply chain management professional accreditation.

Douglas is one of the top non-master degree programs in Canada, officially recognized by Supply Chain Canada, to prep you for SCMP designation, with 77% of SCMP's credit hours being built into our Advanced Supply Chain Management program.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Managing Project Costs, Quality, Risks and Procurements
- Supply Chain Planning
- Financial and Managerial Accounting for Managers
- Operations Management

CAREER OPPORTUNITIES

- Senior managers – construction, transportation, production and utilities
- Purchasing managers

- Purchasing agents and officers
- Material handlers
- Retail and wholesale buyers

ASSOCIATE OF ARTS DEGREE

Learn about past and present human life with an Associate of Arts Degree in Anthropology. Examine and compare the thoughts, behaviours, material products and social organization of different cultural groups. Develop the observational, record-keeping, critical-thinking and analytical skills that are appealing to employers.

Volunteer for research opportunities and/or put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to an anthropology major or minor bachelor of arts degree at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Volunteer research opportunities

FEATURED COURSES

- Indigenous cultures of British Columbia
- Archaeological Field Studies
- The Anthropology of Gender and Sexuality
- World Prehistory: Ancient Peoples and Places

CAREER OPPORTUNITIES

Graduates may find work in the following fields:

- Education/Outreach
- Archaeology
- Cultural Resource Management (CRM)
- Ethnography/Cultural Anthropology
- Historic Preservation
- Museum/Curation/Project Design
- Community Development
- Advocacy (human rights/social justice)
- Environment and Natural Resources
- Human/Social Services
- Tourism/Heritage
- Business
- Social Impact Assessment
- Humanitarian Efforts

"I wouldn't have made it to where I am today

without the Associate of Arts in Anthropology at Douglas. I went on to complete my BA in Archaeology at SFU, and that is a testament to the instructors at Douglas. I would not be in the place I am without their wisdom and guidance."

- Kristin Oliver, Associate of Arts in Anthropology grad

CERTIFICATE

Embark on a rewarding career in accounting and bookkeeping with the Certificate in Applied Accounting. This five-course program is designed to provide you with comprehensive training in essential accounting software, including QuickBooks, Sage and Excel.

With the Certificate in Applied Accounting, you'll graduate job-ready with the skills and knowledge needed to succeed as a bookkeeper or accounting technician. The demand for these positions is substantial, with over 9,500 job openings projected in British Columbia over the next decade*.

Graduates of this program can seamlessly transfer into the Diploma in Accounting or the Bachelor of Business Administration at Douglas, opening doors to even more employment opportunities.

*Source: *B.C. Labour Market Outlook*

- Audio Artist
- Sound Designer
- Live Sound Engineer
- Sound/Music/Dialogue Editor
- Audio Technician
- Audio-Visual Technician
- Foley Artist/Editor
- Audio Director
- Production Sound Mixer
- Boom Operator
- Audio Programmer

ASSOCIATE OF ARTS DEGREE

Asia is the fastest-growing economic region globally and Canada's second-largest trading partner. It's also the most populous and diverse continent in the world. With the Associate of Arts Degree in Asian Studies, you'll study Asian religions, history, politics and cultures, and develop proficiency in either Chinese (Mandarin) or Japanese.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

In most cases, an associate degree allows you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC

Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Field trips

FEATURED COURSES

- Introduction to Japan: Language, Culture and Society
- Modern China: An Introduction
- Asian Philosophy
- Contemporary Geographies of Monsoon Asia

CAREER OPPORTUNITIES

With further education, this credential is a step towards the following careers:

- international trade
- consular or diplomatic services
- immigration
- tourism
- journalism

- finance
- marketing
- intercultural communication

"The diversity and flexibility of this program is one of its strongest points, and the kindness and sincerity of the instructors towards their students is matched only by their passion and expertise. I continued my studies at UBC and was accepted into the history honours program."

- Ben Han, Associate of Arts Degree in Asian Studies grad

ASSOCIATE DEGREE

An Associate of Arts Degree covers a wide variety of subjects, including mathematics, literature, history, psychology and economics. It is generally used as a stepping-stone to further education, such as a bachelor's degree, but could also be used to seek employment after graduation.

You may choose to focus your studies on one particular specialization or theme. Specialties include anthropology, creative writing, economics, mathematics and philosophy, while the themed Associate of Arts degrees include areas such as Environmental Studies, Future Teachers, and Intercultural and International Studies.

In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

The following are just a few of the many different courses you can choose from with an Associate of Arts.

- New Religious Movements
- Behaviour in Organizations
- Introduction to Film Studies
- Reading Fiction

CAREER OPPORTUNITIES

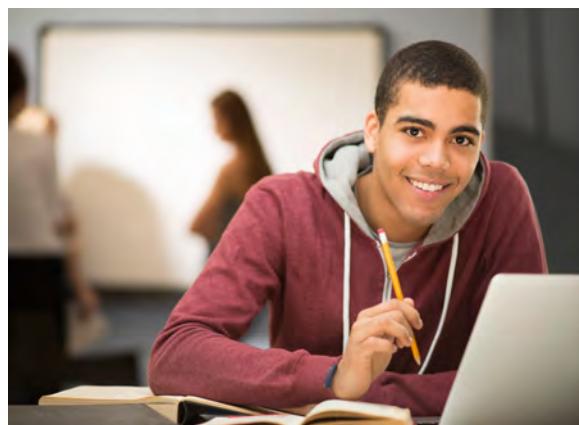

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you and apply your new knowledge to your future education and career.

ASSOCIATE DEGREE

This Associate of Arts Degree (Limited Enrolment) is designed specifically for students coming directly to Douglas from high school who would like priority registration. This means you'll get to register earlier than other students, gaining early access to the courses you need to complete the program.

An Associate of Arts degree provides a liberal arts education covering a variety of subjects including mathematics, literature, history, psychology and economics. It is generally used as a stepping-stone to further education such as a bachelor's degree, but could also be used to seek employment after graduation.

In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

The following are just a few of the many different courses you can choose from with an Associate of Arts (limited).

- New Religious Movements
- Behaviour in Organizations
- Introduction to Film Studies
- Reading Fiction

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you and apply your new knowledge to your future education and career.

ASSOCIATE DEGREE

Do you plan on pursuing a degree in science at a university? With the Associate of Science Degree, you'll complete two years of first- and second-year university-level courses, including courses in math, various sciences and electives.

You can also choose to focus your education by selecting from courses that share a similar specialty or theme, such as biology, chemistry, earth and environmental sciences, or mathematics.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Field trips
- Lab
- Co-op eligible

FEATURED COURSES

- Introduction to Biology
- Introductory Chemistry
- Introduction to Earth Sciences
- Introduction to Statistics

CAREER OPPORTUNITIES

With further education, this credential is a first step towards a career in:

- Biological Tech
- Ecology
- Chemistry
- Lab/Research Analysis
- Biology
- Geology

- Meteorology

"The professors in this program explain complex ideas thoroughly, and were so friendly and engaging - they really enhanced my ability to learn. Also, the labs were high quality and gave me all of the hands-on skills I needed. They were a great supplement to the in-class knowledge."

- Helena Chima, Bachelor of Science in Biomedical Physiology, SFU, grad

CERTIFICATE

Learn to work one-on-one with children with Autism Spectrum Disorder through the part-time, online Certificate in Behaviour Intervention. You'll learn Applied Behaviour Analysis (ABA) methodology and how to use it in your work.

The knowledge, skills and values you'll gain will make you an effective frontline practitioner and team member.

You'll be equipped as a Behaviour Interventionist who can implement behavioural support plans developed by a qualified ABA practitioner.

All courses are taught by Board Certified Behaviour Analysts who are highly experienced in working with children with autism. With provincial funding available to families of children with ASD, graduates of this program are in extremely high demand.

EXPERIENTIAL LEARNING

- Practicum

FEATURED COURSES

- Teaching and Learning Foundations
- Characteristics of Exceptionalities
- Foundations of Family Support
- Teaching & Learning: Introduction to Communication and Behaviour

CAREER OPPORTUNITIES

- Behaviour Interventionist

ASSOCIATE OF SCIENCE DEGREE

Take the first step toward a career as a microbiologist, nature conservation officer, doctor, marine biologist and more with an Associate of Science Degree in Biology. You'll study human anatomy and physiology, microbiology, pathophysiology, marine biology, cell biology, biochemistry, genetics, ecology, zoology and evolution.

As part of the program, you'll also have the option to join the Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can also lead to a biology major or minor bachelor of science degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

- Co-op

- Lab Experience

FEATURED COURSES

- Human Anatomy and Physiology
- Principles of Biology: The Biosphere
- Human Physiology
- Marine Biology

CAREER OPPORTUNITIES

- Agricultural Tech
- Biological Science Technician
- Environmental Program Specialist
- Forestry Technician
- Medical Transcriptionist
- Nursery/Greenhouse Grower
- Research Assistant
- Wildlife Resources Worker
- Biologist
- Biochemist
- Marine Biologist
- Biological Tech
- Wildlife Technician

POST-DEGREE DIPLOMA

Learn the basics of business, finance and accounting law with the one-year Post-Degree Diploma in Business Law. You'll gain a fundamental understanding of business law, learn how to draft and interpret employment and service contracts, and develop legal skills to advance your career. This program is ideal for business owners and managers, professionals in accounting, finance, risk management or human resources, and anyone who might have to review and negotiate contracts in a business or sales setting.

Many of the courses in this post-degree diploma program qualify for credit transfer to other post-secondary institutions in British Columbia; however, please note this program is not equivalent to first-year law.

Please note that you must have a bachelor's degree in order to take this program.

FEATURED COURSES

- Corporate and Financial Planning Law
- Procurement law and Contract interpretation
- Academic Writing
- Legal Research and Reasoning

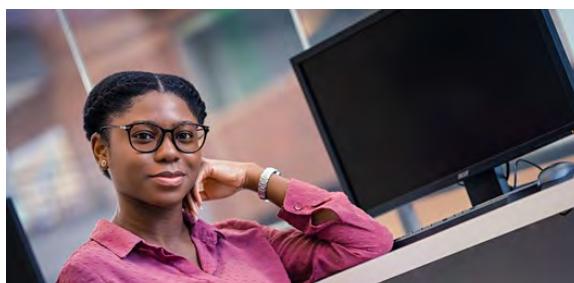

CAREER OPPORTUNITIES

- Aboriginal Rights Advocate
- Accounting Manager

- Business Owner
- Compliance officers/managers
- Contract Officers
- Court Clerk
- Customs Broker
- Finance Manager
- Insurance Claims Adjuster
- Legal Advocate
- Management Consultant
- Victims Advocate
- Youth Worker

"The professors' methodology, style and passion for their craft will stay with me forever. Their zeal made the program more enjoyable and the knowledge poured into me as a result. The things I learned have transferred to my work life and even my personal life."

- Monique Davis, Post-Degree Diploma in Business Law grad

CERTIFICATE

Identify a realistic, achievable career goal and make a plan to reach it with the Career and Employment Preparation (CAEP) program. If you have had barriers to employment, this program is designed for you. Learn how to use your skills and abilities to choose a career and build your self-confidence to enter the workforce or pursue further training.

You'll learn practical stress- and time-management techniques, how to communicate directly and effectively, and have the opportunity to practise study and note-taking skills. A four-week work placement related to your career goals will help you integrate the skills you have practised in the classroom. Test your ideas, gather information, gain exposure to worksites and graduate with job-ready skills.

EXPERIENTIAL LEARNING

- Two practicum placements

FEATURED COURSES

- Job Preparation and Maintenance
- Career Exploration and Planning
- Interpersonal Skills for the Workplace
- Job Search Skills

CAREER OPPORTUNITIES

Graduates of the Career and Employment Preparation (CAEP) Program will have the skills, experience and confidence to enter the workforce or pursue further training in an occupation they identified and researched in the program.

“I had no idea what I wanted to do but this program helped me realize I was not alone in my uncertainty. Our teachers never failed to show encouragement, patience and guidance. You will be encouraged to do the work yourself, with help, until you have the confidence and skill to do it alone.”

- Meagan Roffel, Certificate in Career and Employment Preparation grad

ASSOCIATE OF SCIENCE DEGREE

Study the structure of matter, the chemical properties of liquid and solids, the laws of thermodynamics, chemistry in environmental issues and much more with the Associate of Science in Chemistry. You'll also learn why chemistry is important to understanding biology, geology, medicine, engineering and other sciences.

If you're not ready for college-level courses, we offer an introductory chemistry course to prepare you for further study.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

In most cases, an associate degree will allow you to transfer to the third year of a four-year bachelor's degree at other universities. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Lab experience

FEATURED COURSES

- The Structure of Matter

- Chemistry for Engineering
- Environmental Chemistry
- Inorganic and Materials Chemistry

CAREER OPPORTUNITIES

- Consumer Protection Specialist
- Food Inspector
- Health & Safety Officer
- Medical Lab Technician
- Natural Resource Specialist
- Quality Control Technician (Food Processing)
- Quality Controller Research Assistant
- Technical Sales Representative
- Analytical Chemist
- Chemical Engineering Tech
- Management Specialist
- Food Scientist
- Forensic Lab Analyst

BACHELOR OF ARTS DEGREE

Learn how to support children, youth and families as a professional child and youth care worker through the Bachelor of Arts in Child and Youth Care.

You'll graduate ready to take on team leader or supervisory positions in your community. Our grads find work in settings including schools, community centres, parent-child education settings, residential settings and programs for

street-involved youth, addictions services.

Surveys show that 94 percent of our Child and Youth Care degree graduates are working in the field within three months of graduation. (Source: BC Student Outcomes).

EXPERIENTIAL LEARNING

- Lab/field work
- Three workplace practicums

FEATURED COURSES

- Counselling and Relationship Building with Children
- Introduction to Aboriginal Child, Youth and Family Practice
- Child and Youth Mental Health
- Abuse and Recovery

CAREER OPPORTUNITIES

- Addictions Worker
- Case Manager/Mental Health Coordinator
- Child and Youth Worker/Child Welfare Worker

- Community Rehabilitation Worker
- Early Childhood Supervisor
- Family Service Worker
- Indigenous Centre Coordinator
- Indigenous Outreach Officer - Social Services
- Shelter Program Supervisor
- Supervisor, Youth Services
- Youth Development Coordinator

“My youth workers showed me that I was worthy of love and respect simply because I exist. When I decided to become a child and youth care counsellor, Douglas College was my first choice.”

- Meredith Graham, Youth Transition Conference Facilitator

DIPLOMA

Gain the skills to work with at-risk children, youth and their families through the two-year Child and Youth Care Diploma program. You'll learn how to make a difference in the life of a child or adolescent dealing with abuse, neglect, addiction or family breakdown and who may have behavioural or learning difficulties.

Once you graduate, you'll be qualified for frontline positions working directly with children and youth in schools, community centres, parent-child education settings, residential settings, programs for street-involved youth, addictions services and more.

If you are interested in further education, this diploma transfers into the third year of the Child and Youth Care degree at Douglas or into a related degree at a number of universities.

EXPERIENTIAL LEARNING

- Lab/field work
- Two workplace practicums

FEATURED COURSES

- Counselling Children and Youth
- Family Violence, Abuse and Recovery
- Mental Health in Childhood and Adolescence
- Understanding Aboriginal Perspectives and Experiences

CAREER OPPORTUNITIES

- Child and Youth Support Worker
- Community Worker
- Detention Home Worker
- Group Home Worker
- Indigenous Outreach Worker
- Mental Health Support Worker
- Residential Youth Worker
- Social Services Worker/Assistant
- Youth Care Counsellor
- Youth Worker - Social Services

"I chose the CYC program to learn how to better support my urban Indigenous community. The highlight was the entire first year in the Indigenous Pathway where learning was decolonized and enriched by Elders. Since graduating, my life has become something I'm sure my ancestors dreamed

for me."

- Ravina Morgan, Indigenous Social Innovation Coordinator

DIPLOMA

Gain the specialized knowledge and skills needed to work with children and adults with disabilities. You'll learn about advocacy, augmentative and alternative communication, disability issues, inclusive education, employment and behaviour supports, teaching techniques and more. You'll be able to practice what you've learned in three workplace practicums.

You'll graduate ready to work as a Behaviour Interventionist in a variety of settings including elementary and high schools, respite support, day programs, and supported employment programs as well as post-secondary institutions. On average, close to 95 percent of our Classroom and Community Support graduates find work within two months of graduation. (source: DACSO Student

Outcomes Survey 2017-2019).

EXPERIENTIAL LEARNING

- One 160 hour workplace practicum
- One 100 hour workplace practicum
- One 100 hour workplace practicum in Behaviour Intervention

FEATURED COURSES

- Teaching and Learning: Supporting Communication and Behaviour
- Autism Spectrum Disorder (ASD) Across the Lifespan
- Person-Centred Planning and Community Building
- Supports for Children and Youth with Disabilities

CAREER OPPORTUNITIES

- Classroom Support Worker
- Community Support Worker
- Day Program Coordinator
- Education Assistant

- Aide Employment Support
- Specialist Employment/Job Coach
- Indigenous Education Assistant
- Inclusive Education Assistant

"The BI specialization program was a great asset to both my career and education paths. I have gained both skills and confidence in working with children with ASD, which has opened up new career possibilities for me."

- Synsia Wang, Diploma in Classroom and Community Support grad

DIPLOMA

Learn about inclusive education, disability studies, advocacy, positive behaviour and employment supports with the two-year Diploma in Classroom and Community Support. You'll complete two workplace practicums, allowing you to gain hands-on experience supporting the development, education and well-being of children and adults with disabilities in a variety of settings including elementary and high schools, respite support, family homes and supported employment programs.

You can seamlessly enter the second year of SFU's Bachelor of General Studies program at the Faculty of Education after the completion of the CCS diploma. This pathway provides you with a solid foundation in inclusive education and expands your career prospects, preparing you to pursue a teaching career. The diploma also transfers into Douglas' Bachelor of Child and Youth Care.

EXPERIENTIAL LEARNING

- Two workplace practicums

FEATURED COURSES

- Contemporary Practice in Adult Supports
- Change and Development: Lifespan
- Person-Centred Planning and Community Building
- Supports for Children and Youth with Disabilities

CAREER OPPORTUNITIES

- Classroom Support Worker
- Community Support Worker
- Day Program Coordinator
- Education Assistant
- Aide Employment Support

- Specialist Employment/Job Coach
- Indigenous Education Assistant
- Inclusive Education Assistant

"I entered the program thinking I'd become an education assistant. I left as an advocate and community support worker, helping adults participate in the broader community. I love the work I do, and for the first time in my life I feel like I am truly making a difference."

- Patrick Fowler, Community Support Worker

DIPLOMA

Get an introduction to business and other subjects with the Commerce and Business Administration Diploma program. Choose from courses in accounting, marketing, economics, computing studies and information systems, English, philosophy and more.

You'll benefit from class projects that focus on real-world situations and from

the resources in our state-of-the-art computer labs. Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Money and Banking
- Environmental Economics
- Business Statistics
- Management Essentials

CAREER OPPORTUNITIES

- Accounting Clerk
- Accounts Payable Clerk

- Banking - Customer Service Representative
- Bookkeeper
- Business Management Advisor
- Business/Programmer Analyst
- Collection Clerk
- Credit Assessment Advisor
- Management Trainee
- Manager

"My education at Douglas, combined with my on-campus paid work and volunteer experiences, gave me the knowledge, skills, confidence and poise to deal with all sorts of clients. I owe a lot of my success to the College, my instructors and the mentors I met there."

- Kim Banh, Certified Financial Planner

ASSOCIATE OF ARTS DEGREE

Enhance your writing, speaking, communication and interpersonal skills through the Associate of Arts Degree in Communications. You'll take courses that cover practical writing, spoken communications, presentation skills, language studies, global media, workplace writing and more.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

This credential can also lead to a bachelor's degree in communications. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Foundations of Intercultural Communication
- Spoken Communication
- Communicating and Working Effectively in Groups
- Communication and Social Change

CAREER OPPORTUNITIES

- Advertising Executive
- Campaign Worker
- Census Clerk
- Communication and Event Assistant
- Fundraiser
- Marketing Coordinator
- Media Relations Coordinator
- Multimedia Specialist
- Public Relations Agent
- Volunteer Coordinator

"I love how Douglas gives you the opportunity to explore your own capabilities. In one course we had to interview an expert in the communications field, so I reached out to the head of a major Vancouver PR firm. This challenged me and made me break my fear barrier, but as a result I gained exclusive knowledge for my paper."

- Anastasiia Hrynuik, Associate of Arts in Communications grad

CERTIFICATE

Get hands-on instruction in spoken and written communications in the Certificate in Communications program. Choose from courses covering topics including intercultural communication, global media, and communication and interpersonal conflict, as well as courses from other areas that will enhance your education, such as sociology, philosophy and modern languages. Participate in discussions and presentations, and engage in classroom lectures to develop your critical thinking, writing, research and presentation skills.

You'll gain a solid foundation to work in entry-level positions in the fields of communications and public relations after you graduate, or to go on to further education in other fields.

EXPERIENTIAL LEARNING

- Practical writing
- Oral presentations

FEATURED COURSES

- Global Media and Communication
- Communication and Social Change
- Introduction to Media and Communication Studies
- Interpersonal Skills for the Workplace

CAREER OPPORTUNITIES

Graduates of this program can expect to find entry-level positions in the fields of communications, media or public relations.

CERTIFICATE

Learn to apply the principles of recovery using psychosocial rehabilitation with the Certificate in Community Mental Health Work. You'll learn how to support people with mental health issues to maximize their independence, as well as how to lead group sessions on health, wellness, managing symptoms and setting boundaries.

With an additional semester of study you can obtain a Certificate in Health Care Assisting. These two credentials combined form the Certificate in Health Care Support Work, which equips you with both physical and mental-health-care

skills.

EXPERIENTIAL LEARNING

- Practicum
- Clinical experience
- Lab

FEATURED COURSES

- Therapeutic Relationships in Mental Health
- Recovery in Mental Health
- Concepts for Mental Health Practice
- Clinical Practice

CAREER OPPORTUNITIES

- Aboriginal Mental Health Practitioner
- Child Protection Officer
- Community Development Officer
- Community Mental Health Worker
- Community Support Services Case Worker
- Crisis Intervention Worker

- Disability Services Worker
- Halfway House Support Worker
- Health Coach Housing Support Worker
- Juvenile Justice Officer

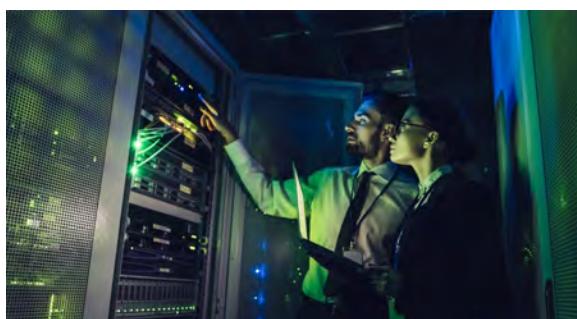

POST-BACCALAUREATE DIPLOMA

Do you have a passion for apps and technology? Get started on your new career with the two-year Post-Baccalaureate Diploma in Computer and Information Systems.

In your first year, you'll learn the basics of computing and programming, and will become familiar with current development tools. In your second year, you'll hone your technical skills through one of three streams: Data Analytics, Cybersecurity or Emerging Technology. Get up to speed on many technical concepts, and gain a better understanding of hardware maintenance and advanced computer applications.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- C++ Programming
- Advanced Integrated Software Development
- Multimedia Web Development
- Computer Network Security

CAREER OPPORTUNITIES

- Computer Network Technician
- Computer Support Specialist
- Computer Systems Analyst
- Game/App Developer
- IT Consultant
- IT Projects Associate
- Quality Control Engineer
- Software Engineer
- Technical Director
- Underwriter
- Telecommunications Consultant
- Web Technician
- Logistic Manager

“This program helped me develop my problem-solving abilities and time management skills, as well as the ability to think logically and creatively. My professors' guidance helped me achieve excellent results in all my projects, and also exposed me to new technologies in the IT market.”

- **Kovid Sehgal, Post-Baccalaureate Diploma in Computer and Information Studies grad**

CERTIFICATE

Take your first step toward a career in software development, programming, information security analysis and much more with a one-year Certificate in Computing Science.

Build your computer literacy and gain a solid foundation in applied and academic computer programming and computing science. You'll get the opportunity to develop your skills in Python and C++ programming, and learn how to use Raspberry Pi. This program is recognized by Epic Games as a valid and proven Education and Training Partner for Unreal Engine.

All Computing Science courses at Douglas and their credits are fully transferable to the five main research universities in British Columbia.

EXPERIENTIAL LEARNING

- Work with industry tools
- Lab experience

FEATURED COURSES

- Calculus
- Introduction to Computing Science & Programming
- Discrete Mathematics
- C++Programming

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Computer Network Technician
- Computer Support Specialist
- Computer Systems Analyst
- Game/App Developer
- Help Desk Support/Network Help Desk
- Information Systems Technician
- IT Support Assistant, Specialist or Consultant
- Java Developer
- Software Designer/Developer/Programmer/Tester

- Technical Support Staff
- Web Developer

DIPLOMA

Join the expanding IT industry or launch a career in game development - you can take your pick with the Diploma in Computing Science. In the first year of this two-year program, you'll learn the basics of computer programming and gain experience using both C++ and Python. In your second year, choose from one of two streams:

Game Development stream: learn to write code for computer games using industry-standard game development tools. You'll also develop entire games from initial design to implementation for both computers and virtual reality devices. This program is recognized by Epic Games as a valid and proven Education and Training Partner for Unreal Engine.

General Information Technology stream: get the skills and knowledge in software development and programming you need to launch your career as a software engineer, IT manager, database administrator and more.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

EXPERIENTIAL LEARNING

- Co-op
- Work with industry tools
- Create own video game
- Lab experience
- Practicum

FEATURED COURSES

- Data Structures & Algorithms
- Computer Programming
- Intro to Computer Architecture
- User Interface Design

CAREER OPPORTUNITIES

- Computer Support specialist
- Computer Game programmer
- C++ developer
- Python developer
- Software designer/developer
- Virtual reality developer

DIPLOMA

Do you have a passion for the latest technology? Get ready for a career in the

booming IT sector with the Diploma in Computing Studies and Information Systems (CSIS). You'll take courses in system and networking concepts, programming languages and business, giving you a well-rounded set of skills that can be applied to a variety of careers.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

EXPERIENTIAL LEARNING

- Co-op eligible
- Work with Javascript and Ajax

FEATURED COURSES

- C++ Programming
- Software Engineering
- Multimedia Web Development
- UX Design in Mobile Applications

CAREER OPPORTUNITIES

- Computer Network Technician
- Computer Support Specialist
- Computer Systems Analyst
- Game/App Developer
- IT Consultant
- IT Projects
- Associate Java Developer
- Junior Web Developer
- Software Designer
- Student Assistant - Lab Assistant
- Technical Support Staff

"This program gave me exposure in entrepreneurship, management skills and economics alongside computer science. The Co-Op program was tremendously helpful in getting my first job without any experience and showed me how to build my network with professionals in the same field."

- Manvir Heer, Junior Web Developer

ASSOCIATE OF ARTS DEGREE

Interested in writing poetry, plays, fiction and more? Learn the theory behind all of those genres and gain practice writing in each with the Associate of Arts Degree in Creative Writing. You may also choose to specialize further by taking advanced courses in one genre.

Classes are built around a classic face-to-face workshop model that invites and encourages participation from everyone. This workshop method of teaching allows you to develop the critical-thinking skills needed for revising your own work.

You'll graduate with a competitive portfolio of creative writing that will assist you when applying to creative writing programs at university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide.

EXPERIENTIAL LEARNING

- Co-op eligible
- Creative writing workshops
- Writers Unplugged open-mic events

FEATURED COURSES

- Introduction to Writing Fiction
- Writing for Film
- Introduction to Writing Poetry
- Personal Memoir

CAREER OPPORTUNITIES

- Copywriter
- Curriculum Development Assistant
- Ghost Writer/Biographer
- Social Media Specialist
- Theatre Administrator
- Writer - Feature Writer/Columnist
- Writer - Media - Radio/TV/Multimedia
- Writer - Novelist/Playwright/Poet

“My time in the Creative Writing program was such a great experience. Getting one-on-one feedback in a workshop format really pushed me to pursue creative writing. And the feedback model has also helped me with my academic writing skills.”

- Telka Pesklevits, Associate of Arts Degree in Creative Writing grad

CERTIFICATE

Are you passionate about the field of criminal justice? Increase your knowledge of the structures and processes of the Canadian justice system with the Certificate in Criminal Justice. You'll learn about policing, corrections, psychology and more and prepare to enter justice-related occupations.

If you decide to pursue further education into a degree program at Douglas or a university, the majority of courses are transferable. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Guest speakers

FEATURED COURSES

- Introduction to the Criminal Justice System
- Introduction to Corrections
- Social Processes
- Introduction to Policing

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Bylaw Officer
- Crisis Services Coordinator
- Deputy Sheriff Association of Threat Assessment Professional
- Forensics Specialist
- Outreach/Victims Support Educator
- Police Officer
- Polygraph Technician
- Probation Officer
- Transit Police
- Youth Justice Worker

ASSOCIATE OF ARTS DEGREE

Learn about the implications of crime and how to manage it in society with the Associate of Arts Degree in Criminology. You'll study the criminal mind and the systems society has designed to deal with criminal behaviour, learning from instructors who have experience on the front lines as lawyers, youth workers, police officers, policy makers and psychologists.

This credential can lead to a criminology major or minor bachelor of arts degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Practicum
- Co-op eligible

FEATURED COURSES

- Interviewing and Professional Skills
- Psychological Explanations of Criminal Behaviour
- Youth, Crime & The Law
- Environmental Criminology and Law

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Bylaw Officer
- Crisis Services Coordinator

- Deputy Sheriff Association of Threat Assessment Professional
- Forensics Specialist
- Outreach/Victims Support Educator
- Police Officer
- Polygraph Technician
- Probation Officer
- Transit Police
- Youth Justice Worker

DIPLOMA

Prepare to enter the criminal justice field with the Diploma in Criminology. Study the criminal justice system and learn about the complex problems encountered in the criminal justice field. Deepen your knowledge of the processes and structures of the Canadian justice system.

You'll learn from instructors who have experience on the front lines as lawyers, youth workers, police officers, policy makers and psychologists.

Upon graduation, you can seek further education in the fields of criminology, psychology, forensic science or similar, or start your career in areas such as the government, educational institutions or the non-profit sector.

EXPERIENTIAL LEARNING

- Guest speakers
- Attend court hearings

FEATURED COURSES

- Psychological Explanations of Criminal Behaviour
- Sociological Explanations of Criminal Behaviour
- Criminal Law
- Introduction to the Criminal Justice System

CAREER OPPORTUNITIES

- BC Deputy Sheriff
- Canada Border Services Officer (CBSA)
- Correctional Officer (Provincial or Federal)
- Court Registry Clerk
- Environmental Conservation Officer
- Immigration & Customs Officer
- Mental Health Worker
- Residential Support/Youth Worker - Group Homes (nonprofit)
- Security Officer
- Support Services Worker - Halfway House/Transition
- 911 Operator/Telecommunications Operator

“You'll be taught by instructors who've been lawyers for most of their careers, which means they have

real-world experience that informs their teaching. Because of the small class sizes you can actually build a personal connection with your instructors, and these are people who could potentially help you get an internship down the road."

- Katelyn Lohr, Diploma in Criminology student

BACHELOR OF ARTS DEGREE

Launch your criminal justice career with the Bachelor of Arts in Applied Criminology. Develop your skills and knowledge in crime prevention, risk assessment, demographic research, crisis intervention and conflict de-escalation. Apply these skills to real-life scenarios through work placements with the Vancouver Police Department, private security companies and other agencies. Graduate with 100 hours of work experience in the criminal justice field.

In your third and fourth years of the degree, you'll complete an applied concentration in one of three areas. Choose from Community and Institutional Practice, Crime Analysis and Prevention or Legal Studies. These practicums will lay the groundwork for a fulfilling career in policing, probation, parole, corrections, security management, crime prevention and more.

EXPERIENTIAL LEARNING

- Workplace practicum (100 hours)
- Four professional development activities (workshops or training)
- Field trips
- Working with industry tools, such as desktop analysis packages and geographic crime mapping applications
- Guest lectures
- Lab experience
- On-campus & off-campus events through the Criminology student association

FEATURED COURSES

- Media, Crime, and Law
- Indigenous Peoples: Crime and Administration of Justice
- Mental Disorder and Law
- Drugs and Behaviour

CAREER OPPORTUNITIES

- Bylaw Officer
- Crisis Services Coordinator
- Deputy Sheriff
- Association of Threat Assessment Professional
- Forensics Specialist

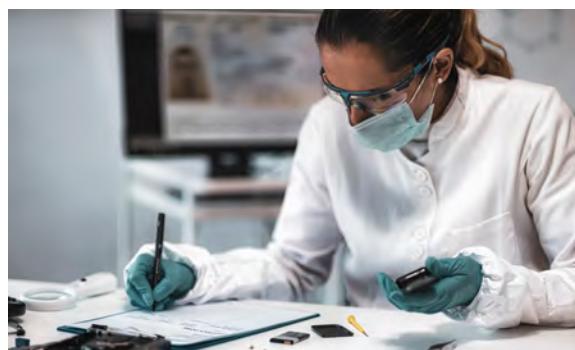

- Outreach/Victims Support Educator
- Police Officer
- Polygraph Technician
- Probation Officer
- Transit Police
- Youth Justice Worker

BACHELOR OF ARTS, HONOURS

Complete self-directed research in an area of criminology with the Bachelor of Arts in Applied Criminology – Honours program. Learn how to prevent crime in your community and provide legal services to new immigrants or refugees. Develop the skills and knowledge needed to become a lawyer, police, parole, probation officer and more.

As part of this program, you'll complete an applied specialization in one of three areas in your final two years. Choose from Community and Institutional Practice, Crime Analysis and Prevention, or Legal Studies. You'll have the opportunity to do work placements with the Vancouver Police Department and other agencies. Gain a competitive edge when applying for grad school, and be a top contender in the job market when you graduate with 100 hours of hands-on work experience.

This honours degree option is recommended for students who plan to attend graduate school.

EXPERIENTIAL LEARNING

- Workplace practicum (100 hours)
- Self-directed research project
- Four professional development activities (workshops or training)
- Field trips
- Working with industry tools, such as desktop analysis packages and geographic crime mapping applications
- Guest lectures
- Lab experience
- Co-op eligible
- On-campus & off-campus events through the Criminology student association

FEATURED COURSES

- Mentally Disordered Offender
- Female Offender
- Restorative Justice
- Developmental Psychopathology

CAREER OPPORTUNITIES

- Bylaw Officer
- Crisis Services Coordinator
- Deputy Sheriff Association of Threat Assessment Professional
- Forensics Specialist

- Outreach/Victims Support Educator
- Police Officer
- Polygraph Technician
- Probation Officer
- Transit Police
- Youth Justice Worker

"The best part of this program was the hands-on learning experience from the practicum, which gave me the unique opportunity to work in the criminal justice field and gain invaluable practical experience and connections. I was hired before I officially graduated and came out of college with an awesome position in law enforcement."

- Zoe Parro, Bachelor's in Applied Criminology grad

CERTIFICATE

Learn the skills required for customer service, hospitality, merchandising and cashiering with the Customer Service and Cashier Training Certificate program. This 14-week training program is designed to assist you if you have had barriers

to employment.

You'll learn through classroom, lab, and work experience components, and receive training in customer service, cashiering, communication and teamwork skills. You'll also learn employability skills and job search techniques, and have the opportunity to obtain certificates in POS Cashiering, WHMIS, and Superhost. Gain real world experience through a community practicum in the customer-service or retail field and graduate with job-ready skills.

EXPERIENTIAL LEARNING

- Practicum

FEATURED COURSES

- Cashiering Application
- Customer Service Basics
- Job Search Skills and Maintenance
- Introduction to Employability Skills

CAREER OPPORTUNITIES

The Customer Service and Cashier Training Program prepares students for employment in various positions in customer service/hospitality, merchandising and cashiering.

POST-DEGREE DIPLOMA

If you have a background in computer science, boost your employability with a Post-Degree Diploma in Data Analytics. This credential will get you started on your path to becoming an information systems analyst or manager, database analyst, data administrator and more.

In this intensive, one-year program, you'll learn the specialized technical skills in data technology and business intelligence strategy you need to launch your career in data analytics. Meet the needs of rapidly changing data technology and business intelligence strategies, and be part of the demand for qualified analytics professionals.

Please note that you must have a bachelor's degree in order to take this program.

FEATURED COURSES

- Fundamentals of Data Analytics
- Data Visualization
- Systems Analysis and Design
- Introduction to Programming

CAREER OPPORTUNITIES

- Information Systems Analyst/Consultant
- Information systems Manager
- Database Analyst
- Data Administrator
- Information Resource Analyst
- Information Systems Analyst
- Technical Assistant

POST BACCALAUREATE DIPLOMA

Get a well-rounded marketing education and graduate job-ready with the Post-Baccalaureate Diploma in Digital Marketing. You'll learn and develop critical applied skills in e-commerce, paid search advertising, search engine optimization (SEO), digital marketing analytics and content, social media marketing and more.

Our digital marketing courses are designed to evolve alongside the digital marketing field so that you'll always be learning the most up-to-date information. In your final semester, you'll get practical experience working with a real-world client.

You'll graduate with the knowledge needed to earn industry-recognized certifications such as Google Analytics Individual Qualification, Google AdWords Certification, Hootsuite Social Media Marketing Certification and others. These qualifications will help you stand out in the job market and build trust with your future employers.

Three young adults having a discussion. One of them is typing on a laptop while looking at the other two.

EXPERIENTIAL LEARNING

- Co-op eligible
- Internship or practicum

FEATURED COURSES

- Marketing Strategy
- Writing for the Web
- Digital Analytics
- Digital Promotions and Social Media

CAREER OPPORTUNITIES

- Digital Marketing Manager
- Marketing Manager
- Digital Marketing Specialist
- Marketing Coordinator
- Social Media Manager
- Digital Marketing Analyst
- Content Marketing Manager

ADVANCED CERTIFICATE

If you're an education, health or human services professional, or if you have a degree or diploma and want to specialize in the area of Autism Spectrum Disorder (ASD), the Advanced Certificate in Disability and Applied Behaviour

Analysis (DABA) is for you.

You'll develop comprehensive knowledge and skills in the application of Applied Behaviour Analysis (ABA) within a disability context. Learn about ASD in depth and how to implement ABA methodology into your work. You'll gain experience writing behavioural intervention goals and plans that will set you up for success in your future career. All courses are taught by Board Certified Behaviour Analysts and are offered online to accommodate working professionals.

The DABA credential is approved by both the Association for Behaviour Analysis International® (ABAI) and the Teacher Qualification Service (TQS).

EXPERIENTIAL LEARNING

- Fieldwork

FEATURED COURSES

- Functional Behavior Assessment and Clinical Applications
- Principles and Empirical Basis of Behaviour Analysis
- Applied Behaviour Analysis: Research and Applications
- Autism Spectrum Disorder Across the Lifespan

CAREER OPPORTUNITIES

- Behaviour Interventionist
- Board Certified Assistant Behaviour Analyst
- Board Certified Behaviour Analyst

CERTIFICATE

Become a qualified Early Childhood Educator and contribute to the well-being of children, families and communities. This program combines practical experience with theoretical material to give you the skills and knowledge to work with children from newborns to eight years old.

You'll learn to observe, assess and guide child development, both individually and in groups. Gain the confidence to communicate and collaborate with children, caregivers, their community and your colleagues, and understand how to promote health and nutrition, and experience managing a child-care setting.

Graduates with an ECE certification can apply for a provincial license to practice as an Early Childhood Educator and work in provincially licensed preschool and child-care centres.

EXPERIENTIAL LEARNING

- Practicum in early childhood education settings

FEATURED COURSES

- Growth and Development: Preschool Years
- Promoting Healthy Practices in Early Childhood Education
- Transforming and Teaching: Observing and Documenting the Learning and Care of Young Children
- Methods for Inclusive Play-Based Programmes for Young Children

CAREER OPPORTUNITIES

- Early Childhood Educator
- Private Family Caregiver
- Daycare Worker
- Early Childhood Educator
- Family Day Home Provider
- Health Care Aide
- In-home Support Worker
- Infant & Toddler Teacher Aide
- Nanny
- Parent's Helper
- Summer/Children's Camp Leader

DIPLOMA

Combining a certificate in Early Childhood Education and a Certificate in Special Needs, the Diploma in Early Childhood Education qualifies you to apply for two provincial licenses to practice as both an Early Childhood Educator and a Special Needs Educator. You'll be prepared to work in provincially licensed preschool and child-care centres.

Apply theory to reality through a practicum in an early childhood education setting, and work with children from newborns to eight years old both individually and in groups. You'll learn how to manage a child-care setting, guide child development, communicate and collaborate with children and caregivers, and promote health and nutrition.

EXPERIENTIAL LEARNING

- Practicum in early childhood education settings

FEATURED COURSES

- Growth and Development: Preschool Years
- Indigenous Worldview and Early Childhood Education

- Transforming and Teaching: Observing and Documenting the Learning and Care of Young Children
- Methods for Inclusive Play-Based Programmes for Young Children

CAREER OPPORTUNITIES

- Early Childhood Educator
- Special Needs Educator
- Child Development Facilitator
- Community Disability Services
- Worker Community Support
- Worker Early Childhood Educator
- Education Coordinator
- Educational Assistant
- Family and Community Support Worker
- Instructional Assistant
- Play School Teacher
- Teachers Aide/Tutor

"The small classes at Douglas and inclusive atmosphere helped ease my transition from secondary to post-secondary. My two years of ECE education at Douglas made me well-equipped to work in any childcare centre."

- Sarah Yue-Yue Liu, Early Childhood Educator

CERTIFICATE

Strengthen your skills and knowledge and make a positive difference in the lives of infants and toddlers. Observe, assess, plan and guide the development of these children, both individually and in groups. Learn how to manage the operation of a child-care setting and how to confidently communicate and collaborate with children, families and your colleagues.

Through a practicum placement, you'll experience learning from theory to practice in a variety of early childhood education settings, including child care, preschool and others. Graduates are qualified to apply for a provincial license to practise as an Infant/Toddler Educator.

This program is for certificate graduates from an accredited ECE program in B.C. who want an additional post-basic credential in Infant/Toddler ECE.

EXPERIENTIAL LEARNING

- Practicum in early childhood education settings

FEATURED COURSES

- Advanced Growth and Development: Infants and Toddlers
- Working with Families in Early Childhood Education
- Methods for Inclusive Play-Based Programs for Infants and Toddlers
- Issues and Trends in ECE

CAREER OPPORTUNITIES

- Infant/Toddler Educator
- Daycare Teacher
- Early Childhood Development and Education Coordinator
- Early Childhood Education and Toddler Instructor
- Early Childhood Supervisor
- Child Care Centre Manager
- Child Care Consultant
- Child Development Facilitator
- Early Childhood Educator
- Education Coordinator
- Educational Assistant Family and Community Support Worker
- Instructional Assistant
- Play School Teacher
- Teachers Aide/Tutor

"This program exceeded my expectations. There is

such a dedicated network of teachers and advisors who are committed to the students and ensured we understood concepts, and advocated for us in our practicums to ensure we were getting the most out of these opportunities."

- Alexandra Singh, Certificate in Early Childhood Education: Infant/Toddler grad

CERTIFICATE

Learn to assess and guide child development, promote health and nutrition, communicate and collaborate with children and caregivers, and manage a child-care setting. A combination of practicum experience and theoretical material will give you the skills and knowledge to work with children from newborns to eight years old with special needs in an early childhood education setting.

You'll graduate qualified to apply for a provincial license to practise as a Special Needs Educator and work in provincially licensed preschool and child-care centres. This program is for certificate graduates from an accredited ECE program in B.C. who want an additional post-basic credential in Special Needs ECE.

EXPERIENTIAL LEARNING

- Practicum in early childhood education settings

FEATURED COURSES

- Advanced Growth and Development: Infants and Toddlers
- Working with Families in Early Childhood Education
- Methods for Inclusive Play-Based Programs for Children with Diverse Abilities
- Advanced Growth and Development: Individual Planning for Children with Diverse Abilities

CAREER OPPORTUNITIES

- Special Needs Educator
- Daycare Teacher
- Early Childhood Development and Education Coordinator
- Early Childhood Education and Toddler Instructor
- Early Childhood Supervisor
- Child & Youth Worker

- Child Care Centre Manager
- Child Care Consultant
- Child Development Facilitator
- Community Disability Services Worker
- Community Support Worker
- Early Childhood Educator
- Education Coordinator
- Educational Assistant Family and Community Support Worker
- Instructional Assistant
- Play School Teacher

"I liked the small class sizes and how personable the professors were. We were given hands-on experience to learn how to guide children and create curriculums. I left feeling ready and excited to continue my journey as an Early Childhood Educator."

- Carli Miller, Program Manager, Early Childhood Education Centre

ASSOCIATE OF SCIENCE DEGREE

Discuss and learn about some of today's most pressing problems, including climate change, resource use, air and water pollution, and loss of biodiversity with the Associate of Science Degree in Earth and Environmental Sciences.

You'll study plate tectonics, fossils, earthquakes, volcanoes, the environmental impacts of resource exploration and extraction, metals and gemstones, and more.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference.

In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Field schools
- Lab experience
- Field trips
- Work with industry tools

FEATURED COURSES

- Global Environmental Change
- Field Methods
- Introduction to Mineralogy
- Exploration and Mining

CAREER OPPORTUNITIES

- Resource Management
- Resource Sustainability
- Geologist
- Environmental Technician
- Water Treatment Plant Operator
- Watershed Stewardship
- Research Assistant
- Lab Technician

ASSOCIATE OF ARTS DEGREE

If you're interested in the dynamics of the global economy, the Associate of Arts Degree in Economics will deepen your understanding of market-based economies and government policy. Learn about decision-making in the world of business and politics, and examine policies affecting the environment, international trade and public projects.

Participate in discussions and presentations, and engage in classroom lectures to develop and enhance your critical-thinking, writing, research and

presentation skills, competencies that are crucial to success in your career or further education. Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Managerial Economics
- Environmental Economics
- Money and Banking
- International Trade Issues

CAREER OPPORTUNITIES

With further education, this credential is a first step towards careers such as:

- Market research analyst

- Population studies analyst
- Compensation and benefits manager
- Actuary
- Credit analyst
- Policy analyst
- Management consultant
- Institutional researcher

CERTIFICATE

The Certificate in Education Assistance and Inclusion (EAI) program provides you with specialized skills to encourage the well-being, development and education of individuals with disabilities. You'll learn from education experts with innovative teaching methods who will help you become a leader in your field.

Study full- or part-time with options for evening, online, weekend and hybrid (a mix of online and in-person) classes so you can fit studying into your schedule. If you have related education or two years of work experience and would like to get credit or license/field recognition (non-credit) for your experience, Prior Learning Assessment and Recognition (PLAR) is available.

You'll also participate in 160 hours of practical work experience, meaning you'll graduate with experience in the field.

EXPERIENTIAL LEARNING

- Practicum

FEATURED COURSES

- Foundations of Family Support
- Working with Others
- Teaching and Learning: Introduction to Communication and Behaviour
- Characteristics of Exceptionalities

CAREER OPPORTUNITIES

- Education Assistant
- Indigenous education assistant
- Inclusive education assistant
- Community support worker

"I was impressed with the level of support I received from my professors and the structure of the online courses offered. I would highly recommend this program and the many support systems offered at

Douglas College."

- Elisabeth Fanos, Certificate in Education Assistance and Inclusion grad

DIPLOMA

Learn how to make prototypes with water-jet cutters, program autonomous robots to navigate a maze, and use a Raspberry Pi to control mechanical devices in the Engineering and Fabrication Technologies Diploma program.

The two-year program includes courses from math, physics and chemistry, as well as hands-on training in engineering design, fabrication and prototyping (both mechanical and electronic). These skills will give you an edge when applying for a co-op placement in a university engineering degree program, if you transfer to university to complete a degree.

All academic courses are university-transferable and fulfil the requirements for the first year of a bachelor's degree in engineering at most universities in B.C.

Graduates of STEM – Science, Technology, Engineering and Mathematics – programs are highly sought-after in Canada. By 2025, Canada will be short more than 100,000 engineers across all industries, creating major demand for qualified engineers.

EXPERIENTIAL LEARNING

- Lab experience
- Work with industry tools
- Use engineering technology (laser and water cutters)
- Simulations

FEATURED COURSES

- Engineering Graphics and Design
- The Structure of Matter
- Computer Programming
- Electromagnetism, Optics, Modern Physics

CAREER OPPORTUNITIES

This program transfers to engineering degree programs at UBC, SFU and UVic, with some conditions. See the Program and Course Catalogue for details.

“Douglas gave me a great background in math and physics, and the hands-on experience in the fabrication labs gave me a better understanding of how things work. I made a planetary gear set, an electronic remote to power a Lego train and headphone amplifiers to boost the stereo bass in a

car. That's not something I would have gotten in the first two years of a university program."

- Gurman Brar, Diploma in Engineering and Fabrication Technologies grad

CERTIFICATE

If you're planning on completing a bachelor's degree in engineering and prefer a gradual transition from high school to post-secondary, the one-year Certificate in Engineering Foundations is perfect for you. You'll get lots of one-on-one time with instructors plus opportunities to get to know your classmates and work together in teams.

This program provides the first-year academic courses required for a bachelor's degree in engineering and is fully transferable to engineering degree programs at UBC, SFU and UVic.

Over 15,700 combined job openings in Information Systems Analysis, Computer Engineering, Biomedical Engineering and more are expected in B.C. for the next ten years. Additionally, there is expected to be a shift in economic activity from Eastern Canada to Western Canada, resulting in an increased demand for engineers on this side of the country.

EXPERIENTIAL LEARNING

- Hands-on project work

FEATURED COURSES

- Mechanics and Heat
- Calculus
- The Structure of Matter
- Engineering Graphics and Design

CAREER OPPORTUNITIES

This course is designed to transfer students to engineering degree programs at UBC, SFU and UVic, with some conditions. See the Program and Course Catalogue for complete detail.

“My classes had around 20-35 students, which meant the instructors were able to lend a hand whenever possible. That really helped with my learning. The instructors were all so enthusiastic about their work, and they made the learning more fun and interactive than I had imagined possible.”

- Tenzin Woser, Civil Engineering student, UVic, class of 2024

ASSOCIATE OF ARTS DEGREE

Improve your reading, writing and critical thinking skills with the Associate of Arts Degree in English. You'll get to explore and practice a variety of literary styles including fiction, plays, poetry, academic writing and more. You'll be able to tailor your English education to your interests, as each semester instructors choose different texts and themes to teach.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to a degree in English at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Studies in Fiction, Poetry and Drama
- Studies in the Literature of Life Writing

- Advanced Composition and Style
- Topics in World Literature

CAREER OPPORTUNITIES

- Insurance Underwriter
- Journalism Broadcaster
- Marketing Researcher
- Media Trainee - Advertising
- Print Journalist
- Proofreader
- Publications Specialist
- Publisher
- Technical or Medical Writer
- Copy Editor
- Advertising Copywriter

"The wide range of courses I took at Douglas helped me figure out which field of study I was interested in. I transferred all of my credits into the BA in International Studies at SFU, and several months after graduating was hired for my dream job in international development."

- Ksenia Bolshakova, Overseas Program Manager

CERTIFICATE

Improve your speaking, listening and writing skills to prepare for college- and university-level courses with the Certificate in English Language Learning and Acquisition (ELLA).

This program, referred to as the Academic College English Certificate in the Program Catalogue, is designed to help you improve your English as an additional language, and also to develop the research and critical-thinking skills that are vital to post-secondary success. Once you complete the certificate, you will meet the English language proficiency requirements for any course at Douglas.

Study part time or full time. If you are a Canadian citizen, permanent resident or refugee, the program is tuition free.

We also offer introductory-level English courses for those who have a basic understanding of the English language.

EXPERIENTIAL LEARNING

- Lab
- Workshops

- Field trips

FEATURED COURSES

- Upper Advanced Listening and Speaking for English Language Learners
- Upper Advanced Reading and Composition for English Language Learners
- Upper Advanced Composition for English Language Learners
- Upper Advanced Conversation for English Language Learners

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, your understanding of the English language, and apply your new knowledge to your future education or career.

"The ELLA program improved my English a lot and made my writing and speech more concise. It's given me the confidence to pursue my dream of one day owning my own hotel. Now, I'm going into Hospitality Management at Douglas, and I'm passing both of the ELLA classes needed to enter the program."

- Danny Youn, ELLA graduate and Hospitality Management program student

COURSE CREDIT

English upgrading courses will help you improve your reading and writing skills to increase your success in your other college classes. Options range from basic literacy to college preparatory courses.

Before you register for any English upgrading courses, you need to write an English placement test to determine your current written command of English. Once you complete the written test, you'll have a brief interview with an instructor.

All English upgrading courses are free for domestic applicants.

FEATURED COURSES

- Reading and Writing for Student Success

- Learning and Study Skills
- Spelling
- Word Study

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set.

ASSOCIATE OF SCIENCE DEGREE

Explore local and global environmental issues and learn how a scientific perspective can improve your understanding with the Associate Degree in Environmental Science program.

As the issues involved in environmental science are often complex and multi-faceted, environmental science requires an interdisciplinary approach. This means you'll take courses in a variety of science disciplines such as biology, geology and chemistry, as well as courses in the arts, social sciences and business. You may also explore subjects as diverse as environmental geology, urban ecology, environmental ethics and marine biology.

This credential can lead to a bachelor of science degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Field school
- Lab experience
- Seminars
- Field trips (VR and on site)
- Self-conducted research project
- Work with industry tools

FEATURED COURSES

- Principles of Biology: The Biosphere
- The Structure of Matter
- Introduction to Earth Sciences
- Introduction to Environmental Science

CAREER OPPORTUNITIES

- Biological Science Technician
- Entry Level Environmental & Regulatory Specialist
- Environmental Analyst or Scientist (Entry Level)
- Environmental Cleanup Technician
- Environmental GIS Technician
- Environmental Remediation Technician
- Environmental Specialist

- Environmental Technician - Junior
- Environmental, Fisheries, and Wildlife Technician
- Intermediate Environmental Field Technician
- Junior Air Quality Technician
- Junior Environmental Technician or Geologist
- Junior Lab Technician
- Junior Production Technician
- Laboratory Technician

"This program is a perfect stepping stone towards becoming a part of an industry where human beings are trying to find the balance between sustainability and prosperity. The course content, combined with the attention and support I received from the instructors, really exceeded my expectations."

- Joe Tsao, Associate of Science Degree in Environmental Science grad

ASSOCIATE OF ARTS

Learn about the environment from different perspectives. You'll choose from a

wide range of courses in anthropology, economics, geography, sociology, criminology, philosophy, history, political science, and earth and environmental science. Participate in discussions and presentations, and engage in classroom lectures to develop and enhance your critical-thinking, writing, research and presentation skills.

Gain valuable field experience and put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can also lead to a degree in the environmental field. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Field experience
- Lab

FEATURED COURSES

- Environmental Ethics
- Introduction to Earth Sciences

- Urban Environmental Sustainability
- Weather and Climate

CAREER OPPORTUNITIES

With further education, this credential is a first step towards the following careers:

- Park planner
- Environmental consultant
- Environmental impact assessment
- Policy analyst
- Land use planner
- Community engagement
- Climate change analyst
- Recycling program officer
- Sustainability program officer
- Urban Planner
- Land claims officer
- GIS mapping technician

“The program is so versatile. Since environmentalism can be applied in almost every field, I was able to take a variety of courses, from biology to anthropology. It was fun to learn about the environment through different perspectives.”

- Alejandra Llanes, Associate of Arts in

Environmental Studies grad

POST-BACCALAUREATE DIPLOMA

Boost your career potential with the two-year Post-Baccalaureate Diploma in Finance program. You'll acquire financial literacy, a strong foundation in financial planning and investing and an understanding of business and financial law.

Once you graduate, you'll be qualified to write the Chartered Financial Analyst (CFA) Level 1 exam and the FP Canada Financial Planning (CFP) exams, and be prepared to take on roles such as financial planner, financial advisor or investment analyst.

According to the Job Bank of Canada, over 22,300 job openings in the finance field are expected between 2019 and 2028. Financial advisors are especially in demand as companies look to these experts to identify opportunities for business growth.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Personal Finance
- Business Mathematics
- Introductory Business Law
- Corporate Finance

CAREER OPPORTUNITIES

- Financial Planner
- Financial Advisor
- Investment Analyst

POST-DEGREE DIPLOMA

In the one-year Post-Degree Diploma in Financial Analysis you'll learn career-enhancing financial knowledge and acquire a strong foundation in real-world investment analysis and portfolio management skills.

The financial industry is seeing a lot of hiring activity across all sectors, with an expected 23,300 job openings in Canada between 2019 and 2028, according to Job Bank Canada. Professionals who have the financial skills to support business growth are in high demand.

Upon graduation, you'll be qualified to write the Chartered Financial Analyst (CFA) Level 1 exam, the first step to becoming a Chartered Financial Analyst – one of the most globally recognized professional finance qualifications.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Business Internship Program eligible

FEATURED COURSES

- Intermediate Accounting
- Investment Management Techniques
- Corporate Finance
- Portfolio Management Techniques

CAREER OPPORTUNITIES

- Financial Analyst

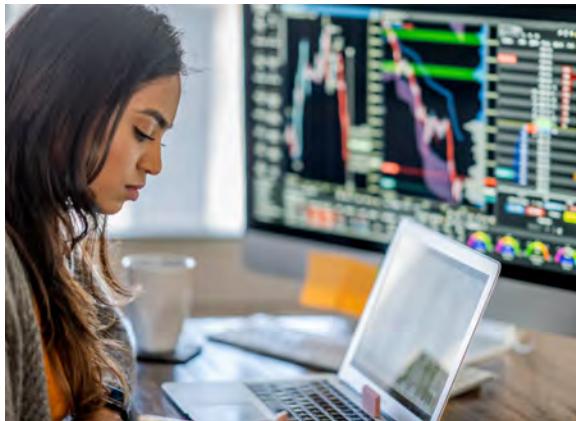

- Investment Analyst
- Portfolio Manager

POST-DEGREE DIPLOMA

Build your knowledge of financial planning, taxation and investing with the one-year Post-Degree Diploma in Financial Planning. You'll take courses in financial services marketing, Canadian securities, wealth management and more. In your second semester, you'll create a professional financial plan.

Once you graduate, you'll be qualified to write the Qualified Associate Financial Planner (QAFP) and Certified Financial Planner (CFP) certification exams and will be able to start work in financial planning at banks, credit unions, securities dealers, insurance companies and in house for other large organizations.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Business Internship Program eligible

FEATURED COURSES

- Financial Services Marketing
- Security Analysis
- Portfolio Management Techniques
- Personal Finance

CAREER OPPORTUNITIES

- Associate Advisor
- Bank Customer Service Associate
- Bank Teller/Banking Call Centre
- Bookkeeper
- Budget Analyst Intern
- Credit Counsellor
- Compliance Officer
- Estate/Trust Administrator
- Financial Advisor
- Trainee Financial Planner
- Loan Processor
- Mobile Mortgage Specialist
- Mutual Fund Sales Representative

BACHELOR OF BUSINESS ADMINISTRATION

Gain the skills and knowledge needed to find work in financial institutions, the insurance industry and more with the Bachelor of Business Administration in Financial Services. You'll take courses that cover financial planning and investing, business and financial law, and financial literacy. All courses are

taught by instructors with senior-level business experience.

As part of your education you'll do 500 hours of documented and supervised work experience, which will help you build your experience and professional network. You can also put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

Once you graduate, you'll be prepared to take the exams for internationally recognized designations such as Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

EXPERIENTIAL LEARNING

- Co-op eligible
- 500 hours work experience
- Business Internship Program eligible

FEATURED COURSES

- Management Essentials
- Corporate Finance
- Principles of Microeconomics
- Business Statistics

CAREER OPPORTUNITIES

- Bank Representative
- Budget Analyst Intern
- Certified Financial Analyst
- Claims Adjuster
- Foreign Exchange Trader
- Investment Advisor
- Investment Research Intern
- Junior Budget Consultant
- Junior Credit Counsellor
- Junior Portfolio Analyst
- Tax Preparer

"The BBA program provided the educational know-how to achieve my professional goal. I enjoyed the intimate learning environment, which fostered deep relationships with my peers and faculty."

- Supun Thalagala, Business Account Manager

DIPLOMA

Learn the skills needed to join the growing financial services field with the Diploma in Financial Services. You'll take courses covering areas including business law, personal selling, accounting, corporate finance and management essentials.

You'll also gain the financial knowledge to write various industry licensing exams after graduation such as insurance, mutual funds and investments. You'll also graduate ready to challenge the FP Canada Qualified Associate Financial Planner (QAFFP) exam.

During the program you can join the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

This diploma transfers into the Bachelor of Business Administration – Financial Services at Douglas College.

EXPERIENTIAL LEARNING

- Write a professional financial plan
- Develop a mock portfolio of securities and analyze performance using a virtual stock trading platform
- Co-op eligible
- Business Internship Program eligible

FEATURED COURSES

- Corporate Finance
- Introductory Business Law
- Principles of Macroeconomics
- Business Statistics

CAREER OPPORTUNITIES

- Assistant Credit Analyst
- Financial Planner
- Bookkeeper
- Claims Examiner
- Client Services
- Customer Service Representative
- Junior Budget Consultant
- Personal Financial Planner (entry level)
- Securities Clerk - Financial Sector

"This program allowed me to become a well-

rounded business student and helped me move into my current career. I'm able to apply much of what I learned at Douglas to my current position, from hiring and scheduling to ordering materials and calculating costs."

- Taylor Wettig, Operations Coordinator

ASSOCIATE OF ARTS DEGREE

Get ready to achieve your dreams at 40,000 feet. In the Associate of Arts for Future Professional Pilots program, you'll take courses that are university-transferable and are relevant to the aviation industry, such as geography courses relating to climate and weather, as well as psychology and business courses.

This program is jointly offered with Professional Flight Centre at Boundary Bay Airport in Delta. Douglas provides the academic instruction leading to the Associate of Arts Degree, while the Professional Flight Centre provides the ground and flying instruction, offering enough flight experience to allow you to obtain a Commercial Pilot License and Multi-Engine Instrument Rating. These components together will provide you with the foundation you need for a career in the aviation industry.

Please note that you will need to apply separately to both Douglas and the Professional Flight Centre.

EXPERIENTIAL LEARNING

- Labs (geography and psychology)

FEATURED COURSES

- Quantitative Methods in Geography
- Weather and Climate
- Critical Thinking
- Earth Sciences

CAREER OPPORTUNITIES

- Commercial Pilot

ASSOCIATE OF ARTS DEGREE

Take the first step to becoming a primary- or secondary-school teacher with the Associate of Arts Degree for Future Teachers program. You'll take courses and learn the essential skills that will help you meet the requirements for admission to the teacher training program (PDP) at Simon Fraser University and to the Faculty of Education at the University of British Columbia.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- History
- Sociology
- Psychology
- English

CAREER OPPORTUNITIES

By continuing on to further education you can gain the qualifications to work as a teacher. If you seek work with your Future Teachers' credential only, these are just some of the career opportunities:

- Admissions Assistant
- Behavioural Interventionist
- Child and Youth Worker

- Client Liaison
- Assistant Community Support Worker
- Community Worker
- Daycare Provider
- Early Childhood Educator Assistant
- Educational Assistant
- Elementary School Assistant
- Humanitarian Worker
- Private Tutor
- Teacher's Aide

ASSOCIATE OF ARTS DEGREE

Explore topics including the contributions of women throughout history; feminism and social justice; and the intersections of gender with sexualities, race and class in an intersectional, collaborative and intellectually stimulating space. Broaden your knowledge of the psychological, sociological and economic factors that contribute to gendered inequalities and experiences in the past and present.

You can also join the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to a women's and gender studies degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll

need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Gender Today: Exploring Gender in Contemporary Contexts
- The Anthropology of Gender and Sexuality
- Introduction to Feminisms: Silences, Voices and Experiences
- History of Sexuality

CAREER OPPORTUNITIES

- Non-Profit Volunteer Coordinator
- Community Support Worker
- Communications Officer
- Child and Youth Worker
- Crisis Help Line Operator
- Campaign Organizer
- Cultural Programs Coordinator/Consultant
- Foreign Service Worker

- Immigration Rights Advisor
- Artist/Filmmaker
- Child's Rights Advocate
- Fundraising Consultant

“This is a highly employable credential that opens a lot of different doors for a future career. I am now studying Gender, Sexualities and Women's Studies at SFU. If you are wondering what you can do to push back against injustices in the world, take this program at Douglas and feel inspired to take action!”

- Jo Lockwood, Associate of Arts Degree in Gender, Sexualities and Women's Studies grad

CERTIFICATE

Gain key business skills or sharpen those you've already developed in the workplace. This flexible program is often pursued by mature working students who want to upgrade their education and skills to prepare for advancement in their careers.

You'll choose from courses in your field of interest, such as accounting, finance, economics, management, business law, computing studies and information

systems, and marketing.

Upon completion of specific courses, you can transfer your credits into the Diploma in Commerce and Business Administration program or any Bachelor of Business Administration program at Douglas.

EXPERIENTIAL LEARNING

- Optional internship
- Business Internship Program eligible

FEATURED COURSES

- Workplace Communications
- Principles of Accounting
- Introductory Marketing
- Management Essentials

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you, and apply your new knowledge to your future career.

DIPLOMA

The Diploma in General Business prepares you for almost any aspect of business. In your first year, you'll develop fundamental business skills such as accounting, economics, marketing and writing. In your second year you can customize your program with electives from other disciplines. Depending on your area of focus, you'll be prepared to write industry certification exams in project management, supply chain management or international management.

This program has been granted equivalency to the Canadian Institute of Management's Chartered Management Program (CMP) which can be used toward the Certified in Management (C.I.M.) or Chartered Manager (C.Mgr.) professional designations.

Further your business education by transferring into the Bachelor of Business Administration programs at Douglas, as well as several other post-secondary institutions.

EXPERIENTIAL LEARNING

- Co-op eligible
- Internship Eligible
- Business Internship Program eligible

FEATURED COURSES

- The Canadian Economy
- Business Ethics
- Management Essentials
- Business Mathematics

CAREER OPPORTUNITIES

- Accounting Clerk
- Accounts Payable Clerk
- Banking - Customer Service Representative
- Bookkeeper
- Business Management Advisor
- Business/Programmer Analyst
- Collection Clerk
- Credit Assessment Advisor
- Management Trainee
- Manager
- Records Management Specialist

"The General Business program gave me the opportunity to take courses from different faculties, which helped me understand business from different perspectives such as financial, legal,

managerial and sociological. That mix of courses gave me the necessary knowledge to start a new position."

- Hannah Nunes, Administrative Assistant

DIPLOMA

Not sure what you want to study? The Diploma in General Studies allows you to explore your interests through courses in the humanities, sciences, performing arts and business, all while accumulating credits that - when chosen carefully - can transfer to university or another program at Douglas. Participate in discussions and presentations, and engage in classroom lectures to develop and enhance your critical thinking, writing, research and presentation skills, competencies that are crucial to success in your career or further education.

FEATURED COURSES

The following are just a few of the many different courses you can choose from with the Diploma in General Studies.

- Professional Editing
- Management Essentials
- Psychology of Women
- History of Sexuality

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you, and apply your new knowledge to your future career.

DIPLOMA

Get the skills you need to work as a geological technician in mining and mineral exploration with the two-year Diploma in Geological Resources. Through the combination of academic knowledge and applied learning, you'll be prepared to work outdoors in some of the most beautiful – and remote – places on Earth, collecting and identifying samples of rocks and minerals, prospecting and more for the mining and mineral-exploration industries.

You'll do two hands-on fieldwork components, which give you the chance to do the work of a geological technician, as well as go on field trips to mines and exploration operations to see how they work. Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

EXPERIENTIAL LEARNING

- Co-op eligible
- Fieldwork
- Field trips
- Lab experience
- Work with industry tools
- Guest lectures

FEATURED COURSES

- Calculus
- History of the Earth
- Sedimentology & Stratigraphy
- Mechanics

CAREER OPPORTUNITIES

- Assistant Environmental Geologist
- Campground Maintenance, Trail Crew
- Data Analyst/Technician
- Data Entry Technician
- Entry Level Remote Sensing Scientist
- Environmental Planning Intern
- Field Research Assistant, Data Entry Technician

- General Labour - Geologist
- Geotechnician
- GIS Data Lab/Office and Research Assistant
- GIS Technician
- Junior CAD Technician, CAD Technologist
- Junior Field Geologist
- Junior Geochemist (Entry Level)
- Map Room Clerk
- Materials Property Specialist

“The ratio of classroom to practical learning was amazing, with frequent field trips and the use of real-world data and samples. The obvious passion and depth of knowledge shown by my professors for their subjects, combined with the small class size, made for a very engaging learning experience.”

- Tyson Antonyk, Geological Technician

ASSOCIATE OF SCIENCE DEGREE

Discuss and learn about some of today's most pressing problems, including climate change, air and water pollution, and loss of biodiversity, with the

Associate of Science Degree in Earth and Environmental Sciences. You'll study soil formation, fossils, natural disasters, resource exploration/extraction and their environmental impacts, metals and gemstones, and more.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to a bachelor of science degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Lab experience

FEATURED COURSES

- Marine Geology
- Structural Geology
- Geological Resources
- Introduction to Earth Sciences

CAREER OPPORTUNITIES

- Resource Management - Fisheries & Wildlife
- Resource Management - Natural Resources Mgmt
- Resource Sustainability - Communication & Public Awareness
- Resource Sustainability - Sustainability
- Solid Water Coordinator
- Surveyor Technician
- Water Treatment Plant Operator
- Watershed Stewardship
- Research Assistant

POST-DEGREE DIPLOMA

Take your finance career onto the global stage with a Post-Degree Diploma in Global Banking and Economics. In this one-year program, you'll develop broad knowledge of the banking industry and the management practices of global financial institutions.

Study international financial management and international trade theory and practice, as well as microeconomics, macroeconomics, global business management and more. In addition, you'll broaden your understanding of the importance of existing and proposed trade agreements, and established practices relating to international financial management.

Please note that you must have a bachelor's degree in order to take this program.

FEATURED COURSES

- International Trade Issues
- Introduction to Financial Economics
- Canadian Macroeconomic Policy
- Global Business Management

CAREER OPPORTUNITIES

- Foreign Service Officer
- Commerce and Trade Officer
- Economic Analyst

CERTIFICATE

Become a global citizen with the Certificate in Global Competency. Explore the worldviews of others, reflect on your own cultural experiences, and explore issues related to sustainability, and intercultural conflict and harmony. You'll also gain skills in critical thinking and intercultural communication while expanding your knowledge of diverse world views.

You can complete this certificate while in your current program and will apply your new skills to a global or local learning experience such as an exchange, field school or volunteer opportunity.

This credential is an asset for careers in international education, refugee and

immigrant services, international business, global supply chain management, environmental sustainability, international relations and more.

EXPERIENTIAL LEARNING

- Intercultural activities
- Study-abroad option
- Guest speakers

FEATURED COURSES

The following are just a few of the many different courses you can choose from with the Global Competency Certificate:

- Global Citizenship
- Perspective in International and Community Development
- International Financial Management
- Leadership: Influencing Health Care Reform
- Ecology and Culture: Global Diversity and Inequality

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, discover what interests you, and

apply your new knowledge to your future career.

CERTIFICATE

Gain the knowledge and skills necessary to provide holistic care to people with diverse health needs with the Certificate in Health Care Assisting. You'll learn how to assist people with grooming, support them in taking part in social and recreational activities, and help them maintain mobility.

With an additional semester of study you can earn a Certificate in Community Mental Health Work. These two credentials combine to form the Certificate in Health Care Support Work, which equips you with both physical and mental-health-care skills.

After you receive your credential, you can register with the B.C. Care Aide and Community Health Worker Registry, which makes you eligible to work at publicly funded health care settings across the province.

EXPERIENTIAL LEARNING

- Practicum
- Clinical experience
- Lab experience

FEATURED COURSES

- Cognitive and Mental Health Challenges
- Lifestyle and Introduction to Practice
- Interpersonal Communication
- Health Challenges

CAREER OPPORTUNITIES

- Activity Aide/Recreation Therapy Aide
- Attendant for Persons with Disability
- Family Caregiver
- Health Care Assistant/Aide
- Home Support Worker
- Housekeeping Aide
- Nurses Aides/Orderlies, Patient Service Associate
- Patient Care Aide
- Personal Home Care Aide
- Senior Care Assistant

BACHELOR OF SCIENCE

Gain the practical skills and experience needed to move up in your career with the Bachelor of Science in Health Information Management (BSc-HIM). The only one of its kind in Canada, the BSc-HIM degree teaches you practical knowledge in health information science, business leadership, project management, information technology and more.

In your third year, choose from concentrations in Information Intelligence, Operational Leadership and Management or take the General HIM stream.

Once you graduate, you'll be eligible to write the national certification exam for the Canadian Health Information Management Association (CHIMA). Benefits of joining CHIMA include networking with professionals, seeing the latest in research and best practices and more.

In the next ten years, over 19,300 job openings in health information management, database analysis, health care management and health policy research are expected in B.C.*

POST-BACCALAUREATE DIPLOMA

Learn how to manage the health-care information that is paramount to patient safety with the Post-Baccalaureate Diploma in Health Information

Management. This program - the only one of its kind in B.C. - combines aspects of health, computer science, business and research in a highly-specialized curriculum. You'll take practical courses in health information science, business leadership, project management and information technology.

During the program, you'll put your skills to work with practicums covering the flow of information within the health sector and beyond; coding, including working with expert data coders, collecting and assigning codes to patient diagnoses and procedures; and a six-week project where you are placed in various departments within the health-care sector, such as health informatics, data analytics, information governance, management or quality improvement.

Upon graduation, you'll be qualified to write the Canadian College of Health Information Management (CCHIM) national certification exam.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Job shadow
- Four practicums

FEATURED COURSES

- Health Information Analysis and Reporting
- Health Care Systems in Canada

- Professional Practice in Health Information Management
- Health Information Systems and Technology

CAREER OPPORTUNITIES

- Client Services - Clinical Administrative Databases
- Coordinator, Records Management
- Data Entry Clerk
- Health Information Management
- Coding Specialist
- Health Information Practitioner
- Health Records Technician Specialist
- HIM Advisor
- Information Management/Information Technology Service
- Medical Health Records Clerk
- Medical Records Completion Clerk
- Medical Release of Information Clerk

"The program prepared me to challenge the CHIMA exam and become a Certified Health Information Management professional. My co-op was a fantastic way for me to get my foot in the door and led directly to my current job."

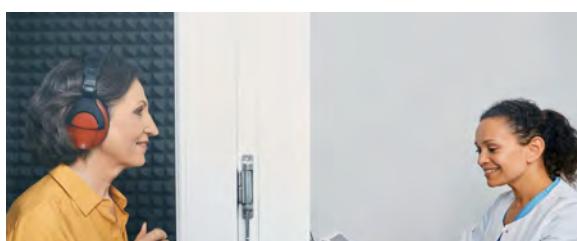

- Meagan Dykstra, Health Information Administrator

DIPLOMA

Are you passionate about helping people, drawn to health care and love working with equipment and technology? Join the two-year Diploma in Hearing Instrument Practitioner, the only program of its kind in B.C.

You'll acquire the skills and training to help improve quality of life for people with hearing loss. Learn how to test people's hearing, dispense and program hearing aids, and counsel patients on managing ongoing hearing loss. You'll study in modern classrooms and labs, and get hands-on experience working with industry professionals during three supervised practicums.

Graduate ready to apply for HIP Internship, a necessary step to becoming a Registered Hearing Instrument Practitioner (RHIP) in B.C.

EXPERIENTIAL LEARNING

- Three practicums
- Lab experience

FEATURED COURSES

- Hearing Disorders
- Anatomy and Physiology of the Ear
- Introduction to Audiometry
- Hearing Impaired Patient Interaction

- Immigration, Diversity and Multiculturalism in North America
- History of Indigenous Peoples in Canada
- The History of Advertising and Consumer Culture

CAREER OPPORTUNITIES

- Arts Administrator
- Corporate Historian
- Exhibit Designer
- Interpreter - Historical Site
- Museum Technician
- Tour Guide
- Genealogist

DIPLOMA

The Hospitality Management Diploma program provides the marketing and

management skills you need to work in the hospitality, and food and beverage, sectors. You'll learn from experienced industry professionals and gain expertise in areas such as front office processes, food and beverage operations, budgeting, marketing and event management.

Develop your business skills in finance, economics, business strategy, human resources, innovation, and ethical decision-making to position yourself for a leadership role once you graduate. Make valuable contacts and secure paid work as part of the program's work experience component. Many of our students get hired for seasonal jobs – or permanent full-time jobs as graduates – at our Career Days hiring fair every spring.

EXPERIENTIAL LEARNING

- Field trips
- Guest lecturers
- Work with hospitality industry software
- Working at on-campus events (optional)
- Business Internship Program eligible

FEATURED COURSES

- Event Management
- Hospitality Business Policy
- Hospitality Sales and Advertising

- Tourism Business Structure

CAREER OPPORTUNITIES

- Adventure Tourism Specialist
- Booking Coordinator/Travel Agent
- Cabin Service and Cleaning Attendant
- Concierge/Hostess
- Guest Services Agent
- Manager
- Hotel Desk Clerk
- Seasonal Flight Attendant
- Server (hotel banquet/convention centres)

"I went in with my eye on event management and fell in love with food and beverage. The program was exciting and hard work, but if you're organized you will find the rewards are immense. I am now employed in my chosen field and was able to come in at the management level as opposed to entry-level."

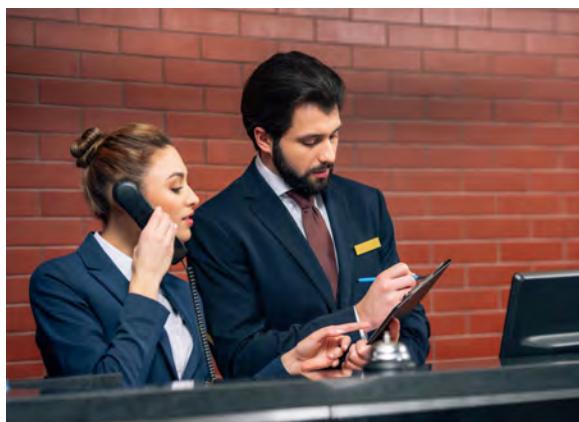

- Joanne McGilvray, Banquet Manager

POST-DEGREE DIPLOMA

Prepare for leadership roles in operations, marketing and event-planning in hotels and restaurants with the Post-Degree Diploma in Hospitality Management. The program is designed to help professionals like you get ahead in the hospitality industry, one of the fastest-growing industries in B.C., Canada and the world.

You'll learn about event management, revenue management, strategic planning and more. Gain a better understanding of leadership roles in the tourism industry, improve your marketing and event-planning skills, and complete a 100-hour work experience component. Upon graduation, you'll be qualified to take on your dream role.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- 100 hours work experience in the hospitality industry
- Business Internship Program eligible

FEATURED COURSES

- Revenue Management in Hospitality
- Strategic Management in Hospitality
- Hospitality Sales and Advertising
- Food and Beverage Cost Controls

CAREER OPPORTUNITIES

- Accommodations Manager
- Event Manager
- Food and Beverage
- Operations Manager
- Revenue Manager

"The program equipped me with the business knowledge and skills I needed to succeed. The networking and career opportunities were enormous. I've learned that many world-class hotels are looking for people with formal hospitality education as it demonstrates your passion and dedication to the industry. "

- Jian Huang, Post-Degree Diploma in Hospitality Management grad

POST-DEGREE DIPLOMA

Prepare to work in tourism with the Post-Degree Diploma in Hospitality Marketing. The combination of classroom learning and hands-on experience will build your knowledge and skills in hospitality marketing including market research, branding, advertising and customer relationship management.

Through the program you'll get the opportunity to work on real projects in the business community, and get 100 hours of work experience in a hospitality setting. Part-time study options are also available to working professionals. Develop your in-depth practical business and marketing skills to help you build a career in any number of hospitality industry sectors.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- 100-hour training in the hospitality industry
- Business Internship Program eligible

FEATURED COURSES

- Revenue Management in Hospitality
- Strategic Management in Hospitality
- Hospitality Sales and Advertising

- Food and Beverage Cost Controls

CAREER OPPORTUNITIES

- Accommodations Manager
- Event Manager
- Food and Beverage
- Operations Manager
- Revenue Manager

"The Hospitality Marketing PDD program was the most fun I have ever had in school. I learned all areas under the hospitality umbrella, met great people, helped organize a scholarship fundraiser and lived in Thailand on a student work exchange."

- Mandeep Kondola, Hospitality Marketing Post-Degree Diploma grad

POST-BACCALAUREATE DIPLOMA

Prepare for leadership roles in the hospitality and service sectors with the two-year Post-Baccalaureate Diploma in Hospitality Services Management. You'll work on real projects in the business community and participate in

management simulation exercises that closely mirror the real world. Gain practical marketing and management skills, and learn about event management, revenue management and strategic planning.

The program includes a work experience component in a hospitality or service environment. Career prospects are strong, with the BC Labour Market Outlook predicting there will be more than 92,000 job openings in tourism and hospitality by 2025.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Work experience opportunity in hospitality or service environment
- Business Internship Program eligible

FEATURED COURSES

- Accounting for Managers
- Hospitality Event Planning
- Global Business Environment
- Sustainability and Corporate Social Responsibility

CAREER OPPORTUNITIES

- Assistant Hotel Manager
- Front Desk Manager
- Ski Resort Manager
- Tour Guide Supervisor
- Airline Sales and Service Agent Supervisor
- Event Planner
- Shift Supervisor

“I love the practical approach to learning at Douglas. There are lots of hands-on exercises and activities, including the opportunity to network with industry professionals by participating in hospitality events.”

- Dana Yelimbetova, Post-Baccalaureate Diploma in Hospitality Services Management grad

POST-DEGREE DIPLOMA

Start your career in human resources with the one-year Post-Degree Diploma in Human Resource Management. You'll take courses in areas of human resource management, including training, development and performance management, labour relations, management essentials, employment law and more.

This program also puts you one step closer to receiving a Chartered Professionals in Human Resources (CPHR) designation. Douglas College is an accredited school with the CPRH BC & Yukon Association. The benefits of obtaining your designation and joining this association include career advancement, networking, access to job postings and more.

Please note that you must have a bachelor's degree in order to take this program.

FEATURED COURSES

- Training, Development and Performance Management
- Workforce Planning and Talent Management
- Human Resource Management
- Financial and Managerial Accounting for Managers

CAREER OPPORTUNITIES

- Administrator, Staff Relations

- Case Manager, Disability
- Employee Benefits Manager
- Employee/Labour Relations Advisor
- Employment Interviewer or Supervisor
- HR Adviser, Staffing Adviser/Analyst
- HR Generalist - Benefits
- HRIS Specialist Human Resources Administrator
- Human Resources and Recruitment Officers

POST-DEGREE DIPLOMA

If you already have a bachelor's degree and want to pick up the technical skills to move into a career in IT, the Post-Degree Diploma in Information and Communication Technology is for you. You'll be introduced to a number of concepts in IT, including programming, systems analysis, project management and more.

Learn the technical concepts needed for success in this field and have the opportunity to further explore topics with five elective courses. Gain a better understanding of hardware maintenance and advanced computer applications, and graduate with job-ready skills.

EXPERIENTIAL LEARNING

- Hands-on practice involving HTML, CSS, C#, JavaScript and Ajax

FEATURED COURSES

- Frontend Web Development
- Mobile Application Development
- Software Engineering
- Web Based Scripting

CAREER OPPORTUNITIES

- C/C++ Programmer
- Computer Engineer
- Computer Network Technician
- Computer Support
- Computer Vision Programmer
- Embedded Systems Designer
- Game/App Developer/Desktop Publisher
- Information Systems Analyst
- IT Consultant
- IT Operations Manager
- IT Projects Associate

“The instructors are all experts in their field, and they really get into their subjects – the classes are intense, but in a good way. We’re learning industry-

level, real-world skills. I wanted to build my degree and take my career in a new direction. This program was the perfect fit."

- Jaspreet Khurana, Post-Degree Diploma in Information and Communication Technology grad

ASSOCIATE OF ARTS DEGREE

The Associate of Arts Degree in Intercultural and International Studies will prepare you for a career in international relations, diplomatic relations or foreign affairs. Learn about current global issues and develop the skills for communicating in an international context. Participate in discussions and presentations, and engage in classroom lectures to develop and enhance your critical-thinking, writing, research and presentation skills. You'll also study the basics of a second language.

This credential can lead to a BA in political science or international studies at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Intercultural Communication in the Workplace
- Intercultural Conflict in Interpersonal Relationships
- Introduction to Social and Cultural Anthropology
- Current International Issues

CAREER OPPORTUNITIES

- Careers in the Diplomatic and Consular Corps
- Canadian National Sales Representative
- Citizenship and Immigration Officer
- Community Development/Liaison Officer
- Community Worker
- Cross-cultural Relations Consultant
- Customs Clerk/Broker
- Foreign Service Officer
- Health and Social Policy Researcher
- Historical Research Assistant
- Human Rights Advocate
- Humanitarian Aid Worker

"This program allowed me to get a more holistic view of the world as one big, interconnected society. It was also refreshing to be surrounded by people who were passionate about the same things as me. We regularly had class-wide discussions about world events and offered different perspectives to one another."

- Saya Soma, Intercultural and International Studies graduate

POST-DEGREE DIPLOMA

Boost your career with the Post-Degree Diploma in International Business

Management, the only program of its kind in Canada to be offered in partnership with FITT (Forum for International Trade and Training), a not-for-profit organization offering international business resources, training programs and certifications for global trade professionals.

During the program you'll learn about importing and exporting, market research to develop market entry strategies, supply chain management, managing in international environments, and legal and financial aspects of international trade business.

You'll also be automatically enrolled in the FITT Diploma program and receive an industry recognized FITT Diploma in International Trade upon completion of all requirements. Once you complete a year of work experience in international trade, you may apply for the International Trade Professional (CITP) designation.

Please note that you must have a bachelor's degree in order to take this program.

FEATURED COURSES

- Global Trade Finance
- International Business Entry Strategy
- Global Supply Chain Management
- Globalization and the World Economy

CAREER OPPORTUNITIES

- Air Import Operations Assistant
- Assistant Development Executive
- Business & Industry Liaison

- Trade in the Global Marketplace
- Global Trade Finance
- Operations Management
- Global Supply Chain Management

CAREER OPPORTUNITIES

- Warehouse Manager
- Distribution Manager
- Production Plant Manager
- Inventory Planner or Manager
- Logistics Supervisor

POST-DEGREE DIPLOMA

This 10-course program offers hands-on training in client intake, assessment skills, exercise prescription and more. Once you graduate, you'll meet the academic requirements for the BC Association of Kinesiologists (BCAK) competency exam, an essential step in becoming a practicing kinesiologist.

You'll get 100 hours of hands-on practical experience through fieldwork that is seamlessly embedded into the program. You'll have the opportunity to work alongside a practicing kinesiologist so that you're prepared to start your career in kinesiology upon graduation.

EXPERIENTIAL LEARNING

100 hours of practical experience

FEATURED COURSES

- Foundations of Assessments
- Therapeutic Exercise Prescription
- Ergonomics
- Advanced Exercise Physiology

CAREER OPPORTUNITIES

Practicing Kinesiologist

DIPLOMA

Learn about the administration of justice, business law, criminal law, criminal procedure and evidence, public law (including immigration and human rights law), constitutional law, and private law (torts, contracts, property) with the Diploma in Legal Studies program.

Through this program, you'll get exposure to legal research skills, legal remedies, and the basic principles of legal reasoning. In keeping with the liberal arts basis of the program, you'll also take elective courses that are not related to law. These courses will further develop and enhance your critical thinking, writing, research and presentation skills, competencies that are crucial to success in your future career.

This diploma is university transferable and satisfies the lower division requirements to complete a Minor in Legal Studies. It will also help prepare you if you later plan to attend law school.

FEATURED COURSES

- Criminal Procedure and Evidence
- Introduction to Canadian Government
- The Administration of Justice
- The Criminal Justice System

CAREER OPPORTUNITIES

- Court clerk/Supreme Court registry staff
- Legal agents
- Sheriff
- Court reporter
- Parole officer
- Court translator
- Lawyer
- Paralegal
- Notary
- Policing
- Corrections

"The professors I had were passionate and knowledgeable. Having now completed law school, I'm impressed at how much this program helped prepare me. The content was similar, the testing

methods the same, and overall the program provided a perfect precursor to law school and the legal profession."

- **Cyanne Nisbett, Diploma in Legal Studies grad**

BACHELOR OF SCIENCE DEGREE

Advance your nursing career and become a Registered Psychiatric Nurse (RPN) with Douglas College's Licensed Practical Nurse (LPN) Access to the Bachelor of Science in Psychiatric Nursing (BSPN) program. You'll gain specialized psychiatric nursing skills and knowledge to meet the growing demand for mental health and substance use care in British Columbia.

This pathway is open to current LPNs who hold a valid B.C. College of Nurses and Midwives license and have a Practical Nursing Diploma or Certificate. You will graduate fully prepared to write the Registered Psychiatric Nurses of Canada Examination to be certified as a RPN.

EXPERIENTIAL LEARNING

- Earn while you learn
- Flexible part-time online studies
- One-week in-person residency
- A nine-week preceptorship that can be completed in your local community

FEATURED COURSES

- Therapeutic Relations
- Trauma Informed Practices
- Ethics for Psychiatric Nursing
- Psychiatric Nursing Leadership and Management
- Psychiatric Nursing Clinical Practice

CAREER OPPORTUNITIES

- Rural and urban mental health and substance use programs
- Psychiatric units in hospitals
- Community mental health and substance use programs
- Working with children and adolescents in mental health and substance use settings
- Working with older adults in mental health and substance use settings.
- Forensic psychiatric services (adult and adolescent)
- Substance use services
- Mental health and substance use urgent/emergency services
- Health care leadership positions
- Mental health and substance use tertiary care programs

CERTIFICATE

If you have faced barriers to learning and/or employment, this program is designed for you. You'll learn skills such as component preparation, board assembly, soldering, wire and cable preparation, and hardware assembly.

You can go at your own pace while getting an in-depth education with classroom, lab and work experience components. You'll also get real-world work experience through job-site placements throughout the Lower Mainland.

Once you graduate, you'll be qualified for entry-level positions performing assembly work in electronics or mechanical assembly.

EXPERIENTIAL LEARNING

- Job-site placement
- Two four-week practicums

FEATURED COURSES

Students in the Electronic and General Assembly Option receive training that enables them to work in entry-level assembly positions in electronics and other manufacturing industries. The range of skills taught varies for each student, but typically includes:

- Electronic component preparation
- Printed circuit board assembly
- Soldering
- Cable and wire preparation
- Hardware and general assembly

CAREER OPPORTUNITIES

Successful graduates will be prepared for entry-level positions in electronic or mechanical assembly industries, with skills such as component preparation, board assembly, soldering, wire and cable preparation, and hardware assembly.

CERTIFICATE

Prepare for various positions in food services with the Basic Occupational Education (BOE) - Food Services program. Learn skills such as restaurant safety and sanitation, bussing, dishwashing, basic food preparation and customer service.

If you have faced barriers to learning and/or employment, this program is designed for you. Go at your own place and get an in-depth education with classroom, lab and work experience components. Participate in a practicum with a variety of food service facilities serviced by Douglas College. Once you graduate, you'll be ready to take on an entry-level position in the food services industry.

EXPERIENTIAL LEARNING

- Two four-week practicums

FEATURED COURSES

Students are trained to perform entry-level food services duties including:

- Dishwashing and related duties
- Bussing
- Kitchen maintenance
- Salad bar preparation

Students may also have the opportunity to learn basic food preparation and customer service duties. Food Services students are trained on-campus in the College cafeteria. Practicum sites include a variety of food service facilities in geographic areas serviced by the College.

CAREER OPPORTUNITIES

Successful graduates will be prepared for entry-level positions in food services, with skills such as restaurant safety and sanitation, bussing, dishwashing, maintenance, basic food preparation, and customer service.

CERTIFICATE

Train for retail, wholesale and office positions with the Basic Occupational Education (BOE) - Retail and Business Services program. If you have faced barriers to learning and/or employment, this program is designed for you.

You'll learn skills such as data entry, filing, photocopying, sorting mail and basic retail functions, including shipping and receiving, stocking merchandise and customer service. Upon graduation, you'll be prepared for entry-level employment in a variety of work environments including retail, wholesale and warehouse worksites.

EXPERIENTIAL LEARNING

- Two four-week practicums

FEATURED COURSES

Skills taught in this program provide students with the training required to obtain entry-level employment in a variety of work environments including retail, wholesale and warehouse worksites. Students will develop skills in:

- Retail Merchandising

- Retail Warehousing
- UPC (bar) coding
- Customer service
- Shipping, receiving, stocking

CAREER OPPORTUNITIES

Successful graduates will be prepared for entry-level positions in retail, wholesale and office settings, with skills such as data entry, filing, photocopying, sorting mail, shipping and receiving, stocking merchandise, and customer service.

BACHELOR OF BUSINESS ADMINISTRATION

Are you ambitious, willing to take risks and enjoy leading a team? Learn essential business skills in accounting, finance, economics, marketing, writing and critical thinking with the Bachelor of Business Administration in Management. You'll also develop a solid foundation in human resources, interpersonal conflict, innovation, change management and ethical decision-making that will position you as a successful leader.

Choose from one of six areas of concentration and gain practical industry-relevant skills: Financial Services Management, Hospitality Management, International Business Management, Project Management, Supply Chain Management or Trades Management.

Upon graduation, you will meet the Chartered Management (CMP) educational equivalency and can write the industry exam for your chosen concentration (except Hospitality Management, as the industry does not have a designation).

EXPERIENTIAL LEARNING

- Co-op eligible
- Internship/practicum (optional)
- 500 hours work experience required for capstone course (not provided by program)
- Business Internship Program eligible

FEATURED COURSES

- Ethical Decision Making and Management
- Organizational Management Skills
- Understanding and Managing Interpersonal Conflict
- Innovation and Change Management

CAREER OPPORTUNITIES

- Communications Coordinator
- Credit Loans Specialist
- Customer Relations Coordinator
- Executive Assistant
- Human Resources Assistant
- Investment Manager

- Program Coordinator
- Public Relations Representative
- Real Estate Clerk
- Research Technician
- Sales Administrator

DIPLOMA

Position yourself for a leadership position with the two-year Management Diploma program. In your first year, you'll develop fundamental business skills and study accounting, economics, marketing and writing. In your second year, you'll be introduced to concepts in managing business development, operations and human resources.

This program has been granted equivalency to the Canadian Institute of Management's Chartered Management Program (CMP), which can be used toward the Certified in Management (C.I.M.) or Chartered Manager (C.Mgr.) professional designations.

Depending on the elective courses you choose, you'll also be prepared to write industry certification exams in project management, supply chain management or international management. If you're interested in furthering your education, this program transfers directly into the BBA Management program at Douglas.

EXPERIENTIAL LEARNING

- Co-op eligible
- Internship/practicum
- Business Internship Program eligible

FEATURED COURSES

- Human Resource Management
- Intercultural Communication in the Workplace
- Understanding and Managing Interpersonal Conflict
- Entrepreneurship and New Venture Development

CAREER OPPORTUNITIES

- Accounts Payable Supervisor
- Bank Teller (Customer Service Rep)
- Bookkeeper
- Business Management
- Consulting Business/Programmer
- Analyst
- Collection CI
- Credit Assessment
- Finance Clerk

- Manager
- Records Management Specialist

"The Management Diploma program gave me a great opportunity to discover the areas of business that resonated with me. The program is a great way to find your calling in the business sphere and launch yourself into a career."

- Fernando Amaral, Diploma in Management grad

CERTIFICATE

Gain marketing and business knowledge that can be applied to any industry with the Certificate in Marketing program. You'll develop skills in customer relations, selling, advertising, marketing research and management, and be qualified for entry-level marketing positions in a variety of businesses.

Learn how to devise marketing strategies, do market research and design promotional campaigns. Understand a variety of marketing techniques and know how to apply them to the latest trends in e-marketing, customer relationship management and corporate social responsibility.

EXPERIENTIAL LEARNING

- Business Internship Program eligible

FEATURED COURSES

- Marketing Strategy
- Customer Relationship Management
- E-Marketing
- Personal Selling

CAREER OPPORTUNITIES

With further education, this credential is a first step toward the following careers:

- Advertising Consultant
- Communications Advisor/Coordinator/Associate
- Copywriter
- Digital Marketing Strategist
- Event Coordinator
- Field Marketing Distributor
- Marketing Coordinator
- Media Planner/Buyer
- Media Relations Officer

- Promotion & Marketing Specialist
- Sales and Marketing Coordinator

BACHELOR OF BUSINESS ADMINISTRATION

Become a marketing expert through the Bachelor of Business Administration in Marketing. You'll take a combination of business and marketing courses, gain work experience with local businesses and get hands-on skills with industry-specific software. You'll also have the flexibility to enter the degree from multiple touch points - whether you have just graduated high school, are currently attending Douglas or have credits from another post-secondary institution, you'll be able to start, continue or finish your degree at Douglas College.

In your final two years, specialize your education through one of four concentrations: Digital Marketing Communications Management, Hospitality Marketing, Professional Selling and Sales Management, and Trades Marketing.

EXPERIENTIAL LEARNING

- Co-op eligible
- Marketing practicum

- 500 hours of work experience required for capstone course
- Develop marketing materials/strategies for clients

- Marketing Specialist
- Merchandising Manager
- Non-profit Marketer
- Promotions Manager
- Strategy Planner

"What I liked most about this program were the

numerous opportunities to work with real clients and create real plans for marketing campaigns. A week before finishing the BBA Marketing program I had already received two job offers."

- Danica Wanger, Social Media Manager

DIPLOMA

The Diploma in Marketing combines lectures, case studies and simulated business exercises to expose you to essential marketing concepts. Set yourself up for a rewarding career with a general business education while gaining specialized knowledge in customer relations, selling, advertising, marketing research and management.

Put your skills to work during the program by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

The job outlook is good for graduates, with over 4,000 marketing and advertising job openings expected in B.C. over the next 10 years (Source: BC Labour Outlook).

EXPERIENTIAL LEARNING

- Co-op eligible
- Marketing practicum
- Develop marketing materials for external clients
- Training with Hubspot tools, Google tools and Microsoft tools
- Business Internship Program eligible

FEATURED COURSES

- Management Essentials
- Marketing Strategy
- Principles of Accounting I & II
- Personal Selling

CAREER OPPORTUNITIES

- Advertising Consultant
- Communications Advisor/Coordinator/Associate
- Copywriter
- Digital Marketing Strategist
- Event Coordinator
- Field Marketing Distributor
- Marketing Coordinator
- Media Planner/Buyer

- Media Relations Officer
- Promotion & Marketing Specialist
- Sales and Marketing Coordinator

"My classmates and I got to work with local businesses on marketing projects. We did research, marketing and communications plans, advertising – all aspects of marketing. There were deadlines as well, just like with a real job. We were stressed, but it was great."

- Ilia Bukhmatov, Diploma in Marketing grad

POST-DEGREE DIPLOMA

Gain business and marketing skills you can apply to a variety of industries with

the Post-Degree Diploma in Marketing. You'll learn to devise marketing strategies, design promotional campaigns, perform market research, and use marketing techniques that incorporate the latest trends in customer relationship management and corporate social responsibility. Best of all, you'll learn to think like a marketer.

The program is ideal if you already work in marketing or want to broaden your skill base, transition into management or market your own business. Courses emphasize practical skills and use a blend of lectures, case studies and group work on real projects in the business community.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Practicum (optional)
- Experiential Learning and Internship (optional)

FEATURED COURSES

- Management Essentials
- Promotional Strategy
- Marketing Strategy
- Marketing Research

CAREER OPPORTUNITIES

- Advertising Consultant
- Marketing Researcher
- Brand Manager
- Marketing and Communications Director

"This is a program where you will learn the ins and outs of the marketing industry. The professors are generous in sharing their industry know-how, and will teach you all the current marketing trends. If you want to jumpstart your career in marketing, this is the program to take."

- Charie Ginete-Ilon, Post-Degree Diploma in Marketing grad

ASSOCIATE OF ARTS DEGREE

Take the first step toward a variety of careers with an Associate of Arts Degree in Mathematics. You'll be exposed to a mix of mathematics and arts courses that will help develop and enhance your critical thinking, writing, research and presentation skills, competencies that are crucial to success in your career or further education.

Put your skills to work by joining the optional Co-operative Education Program,

which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

This credential can lead to a bachelor's degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Algebra & Trigonometry
- Calculus for the Social Sciences
- Mathematics for Liberal Arts
- Reading Literature and Culture

CAREER OPPORTUNITIES

With further education, this credential is a first step toward the following careers:

- Actuaries, casualty, insurance, life
- Analyst, actuarial/statistical
- Business Systems Analyst
- Computer and Information Research Scientists
- Financial Analyst
- Information Architect
- Market Research Analyst
- Mathematicians
- Operations Research Analyst
- Computer Systems Analyst
- Statistician

ASSOCIATE OF SCIENCE DEGREE

Gain a strong foundation for almost any career in the natural sciences, social sciences, computer science or a host of other fields with the Associate of Science Degree in Mathematics. Studying mathematics will help you build your ability to think logically and critically and have persistence and creativity in doing so, skills that are important in many fields.

You'll study basic algebra, pre-calculus and calculus, introductory statistics, discrete mathematics for computing science, mathematics for prospective elementary school teachers and mathematics for liberal arts, as well as take electives in other subject areas.

This credential can lead to a bachelor's degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible

FEATURED COURSES

- Calculus
- Mathematics for Teachers
- Probability and Statistics for Science & Engineering
- Quantitive Studies for Environmental Science

CAREER OPPORTUNITIES

With further education, this credential is a first step towards the following careers:

- Business Systems Analyst
- Computer and Information Research Scientists
- Computer Programmer
- Computer Systems Analyst
- Data Mining Analyst
- Database Administrator
- Information Architect

- Market Research Analyst
- Operations Research Analyst
- Research Analyst
- Web Developer

GRADUATE DIPLOMA

Are you a current K-8 teacher who dreads teaching math and science? Are your lessons stale or “by the book”? With the Graduate Diploma in Mathematics and Science Teaching, you’ll build the confidence to become a leader in grades K-8 math and science in your classroom, your school and your district. You will also be eligible for TQS upgrading upon program completion.

The program provides practical, hands-on experience, including experimenting in chemistry labs, examining geological formations with a geologist and observing stars with an astronomer. Courses focus on how ideas can be applied to your own classroom. Classes take place evenings, weekends and online to accommodate working teachers.

Please note that some school districts require approval of a Graduate Diploma Plan before starting your program. Check with your Human Resource department to see if this applies in your district.

EXPERIENTIAL LEARNING

- Immediate application to your daily teaching
- Hands-on science labs
- Interactive, collaborative classes
- Field experiences
- Personalized capstone project

FEATURED COURSES

- Teaching Biology and Earth Science
- Teaching Chemistry and Physics
- Teaching Mathematics
- Mathematics and Science in Popular Culture

CAREER OPPORTUNITIES

If you are a Category 4 teacher, British Columbia Teacher's Qualification Service (TQS) accepts the Graduate Diploma in Mathematics and Science Teaching as an "integrated" program which makes graduates of the Diploma eligible for a pay scale upgrade from category 4 to 5.

If you are a Category 5 teacher, British Columbia Teacher's Qualification Service (TQS) accepts the Graduate Diploma in Mathematics and Science Teaching as an "integrated" program which makes graduates of the diploma eligible for a pay scale upgrade from category 5 to 5+.

"The instructors leading this program are nothing short of amazing. It was so obvious that all of them love what they do. My most memorable moment was a physics experiment where you try to pull a

tablecloth out from under some water bottles. I was the only student who didn't topple them – it was like magic!"

- Alexa Ferris, Elementary school teacher

COURSE CREDIT

The Mathematics Upgrading program will give you the skills needed to improve your grades or satisfy a course prerequisite.

If math intimidates you, this is the program for you. Our instructors are patient, and the small classes allow you to have one-on-one interactions with them and your classmates. Start at the numeracy level, where you will refresh your basic math skills, including multiplication tables. Then, take courses that will demystify fractions and decimals, and will prepare you to learn algebra, which will benefit your studies in business, nursing, science and technology, and more.

We offer math courses with a Grade 11 equivalency so you can satisfy the

prerequisite requirement for courses in the Faculty of Commerce and Business Administration and others.

FEATURED COURSES

- Mathematics - Numeracy Level
- Mathematics - Fundamental Level
- Mathematics I
- Mathematics II

CAREER OPPORTUNITIES

This program will prepare you for further education and enhance your current skill set. Develop your academic experience, your understanding of Mathematics, and apply your new knowledge to your future career or education.

CERTIFICATE

Gain the in-demand skills needed to work in a medical facility in as little as nine months with the Certificate in Medical Office Administration. You'll develop medical and administrative insight on a wide range of topics such as medical terminology, clinical and administrative medical procedures, records

management, medical billing, conflict resolution and more.

Learn to anticipate health care providers' needs and offer the quality support that medical facilities are looking for. Build on your knowledge with hands-on experience through experiential learning labs and a three-week practicum. Upon graduation, you'll be ready to write the Health Information-Certified Associate exam through the Canadian College of Health Information Management. That way, you can enter the health care field with added confidence and evidence of your efficiency, reliability and professionalism.

EXPERIENTIAL LEARNING

- Practicum
- Clinical experience
- Lab experience

FEATURED COURSES

- Medical Health Conditions (including Medical Terminology, Anatomy, and Physiology)
- Medical Office Practices (including Business Communication and Administrative Procedures and Best Practices)
- Medical Office Applications (including Electronic Medical Records and Medical Billing Procedures)
- Medical Office Foundations (including healthcare system structure,

function, impact, principles, and governance)

CAREER OPPORTUNITIES

- Medical Office Assistant
- Medical Secretary
- Billing Clerk
- Administrative Clerk
- Admitting/Patient Registration Clerk
- Medical Records Clerk
- Medical Office Receptionist
- Practice Manager
- Clinic Manager
- Clinic Coordinator
- Office Assistant (Specialist, Psychiatric, Chiropractic, Massage Therapy)
- Clinical Office Assistant
- Nursing Home Clerk
- Telehealth Assistant

"I wish I had taken this program sooner! Everything my professors taught is used in the field. I was initially hired at Vancouver General Hospital where I did my practicum, and since graduating from the program have successfully been employed at BC Children's Hospital in Medical Imaging."

- Kelsey Sutter, Medical Office Assistant

CERTIFICATE

Learn to provide safe and ethical client-centred care to those with mental health and substance use challenges with the Certificate in Mental Health and Substance Use Work program. Guided by qualified instructors, you'll develop necessary skills through practical experience in an in-person clinical setting.

The program focuses on giving you the skills to help patients maximize their independence and potential. It will prepare you for leading and managing life skills and social groups on topics related to communication, mental health promotion and professionalism.

You'll learn to apply principles of recovery through the psychosocial rehabilitation model and principles in equity, diversity and inclusion. You'll gain insight into personal care, daily living activity assistance, medication assistance, trauma-informed practices, Indigenous Peoples care and the impact of colonization.

EXPERIENTIAL LEARNING

- Two practicums
- Clinical experience
- Lab experience

FEATURED COURSES

- Common Mental Health Disorders and Interventions
- Therapeutic Relationships in Mental Health
- Medication Management
- Trauma Informed Practices

CAREER OPPORTUNITIES

- Outreach Support Worker
- Mental Health Rehabilitation Worker
- Mental Health Worker
- Transition House Worker
- Community Mental Health Worker
- Parent Peer Support Worker
- Forensic Service Officer
- Federal Halfway House Residential Support Worker

ASSOCIATE OF ARTS DEGREE

Expand your knowledge of foreign languages and cultures with the Associate of Arts Degree in Modern Languages. Choose from American Sign Language (ASL), Chinese (Mandarin), French, German, Japanese or Spanish. Conversation labs and small classes mean you'll receive individual attention and plenty of

opportunities to practice.

Modern Language courses will help you to develop a variety of employable skills such as communication, teamwork and the ability to work with people from diverse backgrounds. Becoming bilingual or multilingual can open the doors to many career opportunities.

This credential can lead to bachelor's degree programs at university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Conversation labs
- Co-op eligible

FEATURED COURSES

- Linguistic Diversity and Cultural Diversity
- French/German/Spanish/Japanese/Mandarin/ASL
- French Language and Culture through the Media
- Introduction to the Language and Cultures of the Spanish-speaking world

CAREER OPPORTUNITIES

- Foreign Service Peacekeeper
- Foreign Service Specialist
- International Account Representative
- Sign Language Interpreter
- Certified Court Interpreter
- Linguist
- National Security Agent
- Tour Organizer
- Travel Agent
- Writer - Feature Writer/Columnist/Media/Novelist

DIPLOMA

Develop the industry-ready knowledge and confidence you need to launch your professional career with the two-year Diploma in Music. Strengthen your skills through private lessons in voice or your chosen instrument, and take classes in music theory and history, performing ensembles and piano. You'll also have the option to audition for one of Douglas's performance groups, where you'll get live performing experience through concerts, recordings and festival appearances.

Our high ratio of faculty to students provides you with plenty of one-on-one instruction. Our faculty members are active performers locally, nationally and internationally.

Many Music Diploma graduates transfer to university to pursue careers as public school music teachers. The diploma program also provides a basis for further studies directed toward performance, composition, private teaching and other

careers in music.

EXPERIENTIAL LEARNING

- Band, ensemble and choral classes
- Performing groups (by audition)

FEATURED COURSES

- History of Popular Music
- Introduction to Music Technology
- Ear Training and Sight Singing
- World Music

CAREER OPPORTUNITIES

- Composer/Arranger
- Education Services Assistant
- Music and Video Program Assistant
- Musical Theatre Teacher
- Private Music Teacher
- Record Company Sales Rep
- Record Producer

- Recording Artist
- Recording, DJ & Sales Consultant
- Voice Coach

"The Music program is demanding, but rich with experience and opportunity. One moment I'd be participating in a drum circle and the next I'd be attending a prestigious opera production downtown. Since graduating, I've further developed my sphere of influence within the Vancouver music community and my strength as an artist."

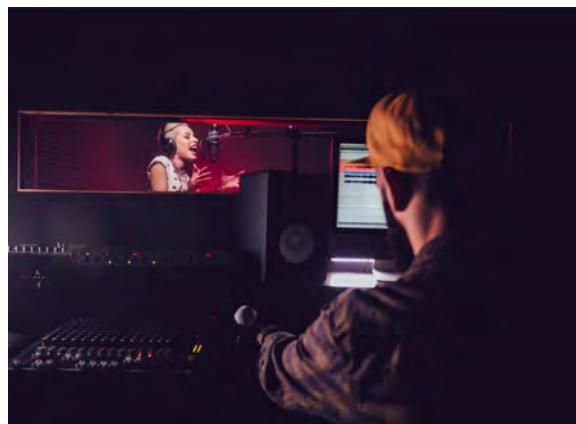

- Kaylar Chan, Musician, composer, visual artist and teacher

DIPLOMA

Get the skills to be a driving force in the studio with the two-year Diploma in Music Technology. You'll get hands-on training in a variety of audio engineering courses in MIDI, sequencing and synthesis, audio recording, music for film, music scoring, studio setup and maintenance, career development and music ensembles, and more.

You'll learn on state-of-the-art equipment in professional facilities — two fully-equipped studios, computer labs and a 350-seat Performing Arts Theatre — for less than a quarter of what you would pay at private colleges in B.C. You'll graduate ready to start your career in sound engineering, music software, audio engineering, music production and more.

EXPERIENTIAL LEARNING

- In-studio classes
- Computer labs
- Applied theory
- Band
- Ensemble and chorus classes

FEATURED COURSES

- Audio Recording Techniques

- Professional Score Production
- Music for Film and Video
- Studio Setup and Maintenance

CAREER OPPORTUNITIES

- Audio Engineer (A1)
- Audio Engineer (A2)
- Live Audio Engineer, FOH
- Live Audio Engineer, Monitors
- General Audio Video Technician
- Studio Audio Engineer
- Audio Producer
- Sound Designer
- Game Audio Production
- Audio Postproduction
- Audio Technician

“The amount of knowledge and acquired skills I learned in the two years of the program is really quite staggering. You will receive a grade-A education on all things related to computer-based music production. Be prepared to put in the work, and you will come out of the program with a ton of skills to pursue whatever avenue of music speaks to

you.”

- Chris Preston, Composer for Film and Television

DIPLOMA

Are you musical and enjoy working with people? The two-year Diploma in Foundation for Music Therapy Studies will help you develop the grounded and relaxed guitar and vocal techniques used in the music therapy field. You'll build your music skills through applied music training in melodic intervals, fingerpicking patterns, chord progressions, healthy vocal techniques, body language for performance and more.

The blend of music and psychology courses provide the prerequisites for third-year entry into Capilano University's Bachelor of Music Therapy program, currently the only provider of a music therapy degree in B.C.

EXPERIENTIAL LEARNING

- Ensemble courses

- Applied music options

FEATURED COURSES

- An Introduction to Psychology
- Child Behaviour and Development
- History of Western Music: Introduction
- Ear Training and Sight Singing

CAREER OPPORTUNITIES

Graduates of this foundations program typically transfer to Capilano University to become certified as a Music Therapist.

"If you want to study for a meaningful career - without breaking the bank - all while forming supportive relationships with teachers and fellow students, then the Foundation for Music Therapy Studies program at Douglas is the right place! The music community there will embrace you with open arms as you develop alongside your peers."

- Ana-Rose Till, Foundation for Music Therapy Studies grad

CERTIFICATE

Develop your musical knowledge and skills with the Certificate in Basic Musicianship. If you have an interest in music but little or no formal training, then this program is ideal for you. You can also use it to upgrade your existing music skills to prepare for the Music Diploma program at Douglas.

Through individual lessons, choral and instrumental ensemble work, and musical theory, you'll deepen your understanding of music and prepare for a rewarding career. Audition for one of Douglas's performance groups and get live performing experience through concerts, recordings and festival appearances.

EXPERIENTIAL LEARNING

- Aural skills and ensemble (instrumental or choral) courses
- Individual lessons
- Performing groups (by audition)

FEATURED COURSES

- Basic Theory
- Aural and Sight Singing Skills
- Beginning Choral Ensemble
- Beginning Instrumental Ensemble

CAREER OPPORTUNITIES

This program is designed to boost performance and music literacy or prepare you for further education in the field.

“Douglas laid the foundation of my career as a musician. The Basic Musicianship program at Douglas can open up careers in teaching, studio recording, live performance, composition and music therapy. This is the best program to get you on your feet for the future when you have little to no music knowledge.”

- Antonio Larosa, Musician Singer/Songwriter

BACHELOR OF SCIENCE

Contribute to the health and well-being of individuals, families and communities with a nursing degree from Douglas. Courses are taught by experienced and innovative faculty who are dedicated to the field of nursing. Classroom learning is augmented with supervised clinical practicums each semester as well as hands-on practice in our campus simulation labs.

You'll graduate qualified to write the NCLEX-RN Canadian Registered Nurse Examination and apply to become a Registered Nurse with the College of Registered Nurses of BC. Douglas nursing grads practise in a variety of settings including acute care, intermediate care, long-term care and community care, as well as taking on leadership roles in hospitals, agencies, extended care and other institutions.

EXPERIENTIAL LEARNING

- Supervised clinical practicums each semester in a variety of health care settings
- Hands-on practice in classroom simulation labs

FEATURED COURSES

- Nursing Art & Science: Vulnerable Populations
- Leadership: Interprofessional Collaboration
- Nursing Practice: Family-Centered Care
- Health Assessment: Community Health and Mental Health

CAREER OPPORTUNITIES

- Clinical Nurse
- Community Health Nurse
- Diabetes Educator Registered Nurse
- Nurse Practitioner
- Forensic Nursing Services
- Public Health Nurse

"The comprehensive curriculum and diverse and thorough clinical placements of the Bachelor of Science in Nursing really helped prepare me for my career as a nurse. Douglas laid the foundation; now, I'm able to provide care to those who need it most."

- Bonn-Tien Mark, Registered Nurse

DIPLOMA

The Diploma in Office Administration offers extensive training in office management. You'll take courses in accounting, mathematics, economics and marketing, as well as elective courses from different departments.

By selecting the appropriate courses, you can work toward attaining the professional designations of Certified Bookkeeper through the Canadian Institute of Bookkeeping, or Qualified Administrative Assistant through the Association of Administrative Assistants. Relevant work experience in addition to coursework is a requirement for both designations.

EXPERIENTIAL LEARNING

- Practicum (not provided by program)

FEATURED COURSES

- Human Resource Management
- Organizational Business Decision Making
- Business Ethics
- Management Essentials

CAREER OPPORTUNITIES

- Intake Support Clerk
- Intake Administrator
- Office Manager
- Administrative Services Manager
- Project Coordinator
- Human Resources Administrator
- Program Administrator/Manager
- Secretary - Legal
- Secretary Clerk - Information, Records, Court, Finance, Integrity
- Special Programs Coordinator
- Political Aide
- Technician, Data Entry

DIPLOMA

Combine business, fashion, vision and technology with a Diploma in Opticianry. You'll study all areas of modern opticianry, including eyeglasses, contact lenses and refraction technologies, and gain clinical experience and service skills by working with customers in the College's Vision Centre.

Upon graduation, you'll be ready to sit the College of Opticians exam. With a graduate employment rate of close to 100 percent, our program has a strong track record in the optical industry. Choose to work for independent opticians or optometrists, or become self-employed.

If you are already a Licensed Optician and want to gain contact lens fitting

qualifications, you may be eligible for direct entry into the second year of the program.

EXPERIENTIAL LEARNING

- Four Practicums
- Lab

FEATURED COURSES

- Theory in Contact Lenses & Optical Technologies
- Laboratory in Contact Lenses & Optical Technologies
- Opticianry Theory
- Opticianry Lab Skills

CAREER OPPORTUNITIES

- Contact Lens Dispenser
- Contact Lens Technician
- Contact Lens Fitter
- Dispensing Optician
- Dispensing Opticians Office Manager
- Licensed Optician

- Optical Device Dispenser
- Optical Frame Fitter
- Optical Laboratory Technician

“One of my practicums was at an optometry clinic, where I did all the fittings myself, from start to finish. I got a feel for what it was like as a dispensing optician in the real world. It was great for learning and building my confidence.”

- Prabhjot Sandhu, Licensed Optician

ASSOCIATE OF ARTS DEGREE

Study music, art history, film studies, theatre history, or creative writing for the stage or screen with the two-year Associate of Arts Degree in Performing and Fine Arts. You'll get an introduction to a variety of arts and cultural topics and

have the opportunity to perform. Join a vocal or instrumental ensemble and benefit from the instruction of professional artists.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to bachelor's degree programs at university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Applied coursework (set construction, lighting, painting)
- Band, ensemble and chorus classes
- Attend plays
- Visit art galleries

FEATURED COURSES

- Introduction to Acting
- Introduction to Film Studies
- Acting for the Stage

- Directing for the Stage

CAREER OPPORTUNITIES

With further education, this credential is a first step towards a career as:

- Composer/Arranger
- Actor/Performer
- Voice Coach
- Musical Theatre Teacher
- Voice Over Artist
- Record Producer
- Stage Manager
- Musical Performer/Musician
- Play/Screenwriter

"I took PEFA 3136 as an elective and highly recommend it. You'll trace popular music from Delta Mississippi Blues to current day while exploring respective social issues and movements, technological advancements, and combinations/evolution of musical styles."

- Adrien Gendreau, Foundation for Music Therapy Studies student

CERTIFICATE

Gain an introduction to a variety of arts and cultural topics and have the opportunity to perform with the one-year Certificate in Performing and Fine Arts. You'll learn from professional artists who will help you discover and develop your interest in acting, stagecraft and event technology, film studies, theatre history, music, or creative writing for the stage or screen.

Explore how the arts connect to social issues, and gain the confidence to explore your own creative skills and integrate art practice into your daily life. See plays, attend art exhibits and have the option to join a vocal or instrumental ensemble.

Academic course credits are transferable so that if you discover an interest in a specific area of the arts you may continue to pursue those disciplines. The certificate is also appropriate as preparation for intensive studies in the Douglas College Theatre, Stagecraft and Music programs.

EXPERIENTIAL LEARNING

- Band, ensemble and chorus classes
- In-studio classes
- Applied coursework (set construction, lighting, painting)
- Attend plays

- Visit art galleries

FEATURED COURSES

- Arts and Culture in Canada
- Canadian Film Studies
- Directing
- Acting

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Audio & Lighting Technician
- Actor/Performer
- Play/Screenwriter
- Stage Manager
- Film/TV Crew
- Audiovisual Producer
- Costume/Set Designer
- Choreographer
- Talent Agent

"This course changed the way I see and feel about art. It also helped me to uncover qualities in myself that I didn't realize I had. I would recommend this program to everyone."

- Gabriella D'Elia, Bachelor of Science in Nursing

student

ASSOCIATE OF ARTS DEGREE

Philosophers ask the big questions, such as “Why am I here?”, “Is there a God?” and “How do we tell right from wrong?” In our program you'll study ancient philosophy, including the thoughts and teachings of Socrates, Plato and Aristotle, Asian philosophy, which introduces belief systems such as Taoism and Buddhism, and philosophy of love, law, mind, art and education. You'll also study ethics and learn about the connection between religion and philosophy, all while honing your critical-thinking skills. Courses also explore the influence of science on society, the problems with philosophy, and logical reasoning.

This credential can lead to a philosophy major or minor bachelor of arts degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op

- Field trips
- On/off campus events
- Self-conducted research
- Guest lectures

FEATURED COURSES

- Reality and Existence
- Philosophy of Love
- Philosophy and Science
- Logical Reasoning

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Lawyer
- Politician
- Professor
- Motivational Speaker
- Writer

GRADUATE DIPLOMA

The Graduate Diploma in Physical and Health Education is designed for working teachers. You'll get the practical knowledge and real-life experience you need to become a Physical and Health Education (PHE) Specialist for elementary, middle or high school classrooms.

Classes are offered in both online and face-to-face formats that don't interfere

with the regular K-12 school schedule. The program delivers a blend of theory and practical skills through health education, movement education, dance, games-centered approaches, physical literacy, outdoor education and school-based leadership.

Prepare to become a confident leader in your classroom and the wider school community through essential skill development, knowledge building and hands-on practice. Plus, you'll be eligible for a TQS salary upgrade in categories 4-5 and 5-5+ once you graduate.

EXPERIENTIAL LEARNING

- Integration of course work into daily teaching
- Outdoor physical education
- Dance and movement education
- Collaborative learning and professional networking
- Practical application of the PHE curriculum

FEATURED COURSES

- Health Education
- Physical Literacy: Foundations
- Alternative Environment Physical Education
- Curriculum Issues: Physical and Health Education

CAREER OPPORTUNITIES

- Physical and Health Education Teacher
- Eligible for TQS upgrading

"Not only did I make lifelong friends, I gained new knowledge and insight to better my own teaching practices. With each course I completed I took multiple resources and ideas to expand my teaching kit, not only providing new and unique ideas in a PHE setting but also allowing my own teaching practices to be more engaging! "

- **Amber Forsythe, Secondary school PHE teacher**

BACHELOR'S DEGREE

Prepare to become a physical education teacher, kinesiologist, or sport, health or wellness professional with the Bachelor of Physical Education and Coaching. You'll study applied teaching and coaching methodology, leadership, anatomy, physiology, social justice, psychology and more. You can choose to concentrate on kinesiology or health promotion.

Get hands-on experience with PE, rehabilitation, coaching and classroom placements with our fieldwork program and be paired with a mentor in the

community. Put your new skills to work with our optional Co-operative Education Program and gain paid full-time work experience that will make you job-ready when you graduate.

After graduation you will be prepared to apply to a variety of graduate and professional programs including education, medicine, allied health and sport and health administration.

EXPERIENTIAL LEARNING

- Co-op eligible
- Field work
- Guest speakers
- Practice with fitness activities/assessments, seminars

FEATURED COURSES

- Physiology of Exercise and Training
- Sport and Exercise Psychology
- Foundations in Physical Education, Recreation & Coaching
- Athletic Injury Assessment and Management

CAREER OPPORTUNITIES

- Adventure/Outdoor Educator
- Athletic Administrator
- Certified Personal Trainer
- Community/Provincial/National Level Coach
- Cruise Ship Recreation Coordinator
- Exercise Physiologist
- Fitness or recreation Coordinator
- Group Exercise Leader
- Gymnastics Coach
- Health/Fitness Consultant
- Physical Health Advocate
- Program leaders and instructors in recreation, sport and fitness
- Sports Official/Referee/Umpire
- Strength & Conditioning Coach
- Yoga/Pilates/Aquatic/Weight Training Teacher

“The BPEC program gave me more career choices than similar programs at universities, where I would be restricted to only one job option once I graduated. Some employers actually value college education more because they know you’re getting that extra quality time with instructors and hands-on experience.”

- Ariana Gomes, Bachelor in Physical Education

and Coaching grad

ASSOCIATE OF ARTS DEGREE

Explore how countries around the world are governed and gain insight into Canada's role on the global stage with the Associate of Arts Degree in Political Science. Develop critical-thinking and research skills through discussion and analysis of everything from history to journalism to economics and political ideologies. You'll also examine political controversies that raise ethical issues in the public life and political choices of public officials.

This credential can lead to a bachelor of arts degree program with a major or minor in political science. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Field trips
- Guest lectures

- Volunteering on election campaigns

FEATURED COURSES

- Politics and Ethics
- Current International Issues
- The Politics of Utopias and Dystopias
- B.C. Government and Politics

CAREER OPPORTUNITIES

- City Councillor
- Civil Preparedness Officer
- Community Worker
- Corporate Engagement & Grants Assistant
- Court Clerk
- Customs Inspector
- Election Assistant
- Humanitarian Aid Worker
- Immigration Officer
- Legislative Analyst

POST-DEGREE DIPLOMA

If you want a career as a professional communicator, the Post-Degree Diploma in Professional Communication is for you. You'll gain experience writing in a variety of genres, editing both print and online documents, designing and producing documents using industry-standard software, and working on

projects in teams and individually. You'll also participate in a professional experience opportunity - either a job or a project - that requires a significant amount of writing.

Equip yourself with the knowledge, skills, and behaviours to work as a professional communicator in sectors including business, government, non-profit and publishing.

This program is designed to meet the needs of both recent university graduates and working professionals, and takes place on Saturdays and in the evenings.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Professional Experience Internship
- Guest Lectures
- Work with industry standard software (Adobe Creative Suite)

FEATURED COURSES

- Professional Editing
- Writing for the Web
- Writing for Magazines and Trade Publications
- Public Relations Writing

CAREER OPPORTUNITIES

- Media Relations Coordinator
- Communications and Event Coordinator
- Public Relations Agent
- Communication Coordinator
- Corporate Communicator
- Information Officer
- Writer
- Editor
- Journalist

"I came away from each course in this program feeling fulfilled, inspired and excited about what I had learned. The smaller class sizes meant each student was given undivided attention and constant feedback, which proved to be invaluable in my growth as a writer. I also had the best instructors I could have asked for."

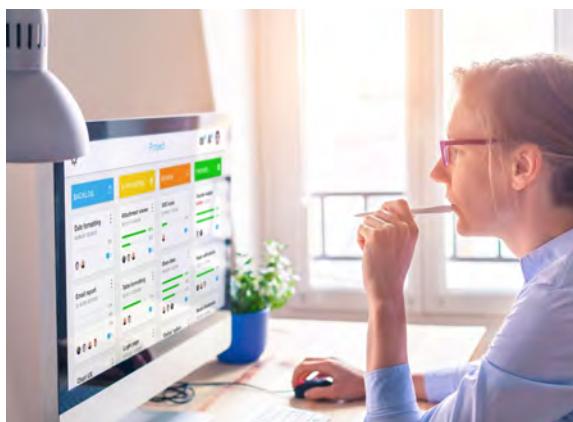

- Maansi Pandya, Creative Copywriter and Marketing Specialist

POST-DEGREE DIPLOMA

Take your project management skills to the next level with a Post-Degree Diploma in Project Management. In this one-year program, you'll learn the project management theories, tools and techniques you need to meet project goals on time and on budget, while maintaining high standards.

Once you graduate, you'll have the knowledge and skills to sit the following Project Management Institute certification exams: Certified Associate in Project Management (CAPM), Project Management Professional (PMP) and Project Management–Agile Certified Practitioner (PMI-ACP). These certifications are recognized around the world.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Group project work
- Case studies
- Business Internship Program eligible

FEATURED COURSES

- Managing Project Scope and Schedule
- Project Management Methodologies

- Essentials of Project Management
- Managing Project Budgets, Quality, Risk and Procurements

CAREER OPPORTUNITIES

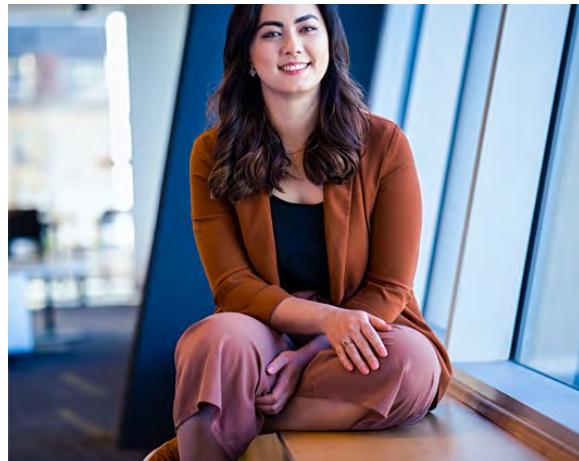

- Assistant Construction Manager
- Assistant Event Planner
- Assistant Project Coordinator/Manager
- Associate Project Assistant
- Group Leader
- Junior Business Analyst
- Junior Project Assistant
- Junior Project Manager
- Logistics Coordinator
- Office Administrator

"Project management was the next step in my career path. I learned how to deal with people and how to communicate properly, as well as marketing strategies and project management techniques.

Today, I'm using all of the skills I learned in my program at my current workplace."

- Tamiris Momma, civil engineer and assistant project manager

BACHELOR OF SCIENCE DEGREE

Get started on your path to a rewarding career as a Registered Psychiatric Nurse (RPN). Douglas College is B.C.'s leading educator in psychiatric nursing, and 99 percent of our graduates are working in their field. (Source: BC Student Outcomes)

Learn to work with a team of health-care professionals to assess patient needs, develop treatment plans and address the complex relationship between a patient's mental, emotional and physical health in the context of their social, cultural and religious situation. You'll get hands-on practical experience through clinically-focused practicums in a variety of settings, plus a full-time, 11-week preceptorship.

Upon completion of your degree, you'll be eligible to apply to the British Columbia College of Nursing Professionals (BCCNP) and will graduate fully prepared to write the RPN certification licensure exam.

EXPERIENTIAL LEARNING

- Five clinical experiences
- Job shadow
- 360 hour preceptorship/practicum
- Simulation labs

FEATURED COURSES

- Trauma-Informed Practices
- Family Health Promotion
- Psychiatric Nursing Concepts
- Group Therapy

CAREER OPPORTUNITIES

Graduates of the Bachelor of Science in Psychiatric Nursing can expect to find work in the following settings:

- Rural and urban mental health or addiction programs
- Acute psychiatric units in hospitals
- Community mental health programs
- Working with children and adolescents in mental health settings
- Working with older adults in mental health settings.
- Forensics (adult and adolescent)
- Addiction services
- Mental health urgent/emergency services
- Health care leadership positions

- Mental health or addiction residential services
- Mental health tertiary care programs

"The Psychiatric Nursing program sets you up for success because it's career-focused. You get so much hands-on experience, and the instructors are really supportive. They're always giving you feedback on how you can do things better."

- Kaarun Sangra, Registered psychiatric nurse

ASSOCIATE OF ARTS DEGREE

Explore different areas in psychology with the Associate of Arts Degree in Psychology. You'll learn data analysis, research methods, brain and behaviour, as well as cognitive and abnormal psychology, and will develop the critical-thinking, writing and oral communication skills needed in many disciplines and careers.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to a psychology bachelor of arts degree program at Douglas or at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Research participation
- Hands-on lab activities
- Research project

FEATURED COURSES

- Cognitive Psychology
- Abnormal Psychology
- Biological Bases of Behaviour
- Data Analysis in Psychology

CAREER OPPORTUNITIES

- Administrative Officer/Assistant
- Behaviour Support Worker/Interventionist
- Caregiver
- Community Activities/Services Coordinator
- Correctional Officer
- Event Planner/Coordinator
- Immigration Case Manager
- Job Developer
- Laboratory/Research Assistant
- Learning Inclusion Support Worker
- Marketing Assistant
- Mental Health and Addictions Support Worker
- Outreach worker
- Settlement and Integration Services Program Officer
- Youth Worker
- Volunteer Coordinator

“The instructors go above and beyond in offering guidance and mentorship by leveraging their own experience. I was selected for the single slot available for transfer students to the BA Honours in Psychology program at UBC and had the opportunity to learn from, collaborate with, and publish with a researcher world renowned in his

field."

- Oscar Cetnarowski, Associate of Arts in Psychology grad

ASSOCIATE OF ARTS

If you're planning to get a bachelor's degree in psychology, start with the Associate of Arts Degree in Psychology - Pre-Bachelor's program. You'll focus on psychology classes while also expanding your education with courses from other disciplines. Explore different areas in psychology, including data analysis, research methods, brain and behaviour, as well as cognitive and abnormal psychology.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field.

This credential can lead to a psychology bachelor of arts degree program at Douglas or at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Research participation
- Hands-on lab activities
- Research project

FEATURED COURSES

- Cognitive Psychology
- Abnormal Psychology
- Biological Basis of Behaviour
- Research Methods in Psychology

CAREER OPPORTUNITIES

- Administrative Officer/Assistant
- Behaviour Support Worker/Interventionist
- Caregiver
- Community Activities/Services Coordinator
- Correctional Officer
- Event Planner/Coordinator
- Immigration Case Manager
- Job Developer
- Laboratory/Research Assistant
- Learning Inclusion Support Worker
- Marketing Assistant
- Mental Health and Addictions Support Worker
- Outreach worker

- Settlement and Integration Services Program Officer
- Youth Worker
- Volunteer Coordinator

“This program is a great way to transition into post-secondary. The required psychology courses gave me a good overview and helped me develop an interest in psychology and psychological research as a potential career.”

- Brendan Quan, Associate of Arts in Psychology grad

BACHELOR OF ARTS

The Bachelor of Arts in Applied Psychology is a third-year entry program for people who have completed 60 credits of undergraduate coursework. In this program, you'll complete at least 30 upper-level credits in psychology, gaining essential knowledge in psychological theory and research. You'll also get 45 hours of field experience as well as valuable practice with psychology computer tools and lab time. Volunteer opportunities with the Douglas Psychology Society are also available.

During your third and fourth years, you'll focus your education on at least one of six concentrations where psychology is typically applied in the workplace: Pre-counselling, Psychosocial Rehabilitation (includes practicum), Disability and Applied Behaviour Analysis, Forensic/Criminology, Applied Theory and Research

or Leadership and Management.

EXPERIENTIAL LEARNING

- Field experience (45 hours)
- Practice with psych computer tools
- Volunteering with the Douglas psychology society (optional)
- Lab experience

FEATURED COURSES

- Theories of Counselling and Psychotherapy
- Mental Health Services and Systems: History and Trends
- Psychosocial Rehabilitation and Recovery
- Adolescent Psychology

CAREER OPPORTUNITIES

- Addictions Counsellor
- Advertising Copywriter
- Career Coach
- Child/Youth Protection Worker
- Community Relations Officer

- Data Analyst
- Employment Counsellor
- Fundraiser/Development Officer
- Hospice Coordinator
- Human Resources Advisor
- Immigration/Border Officer
- Indigenous Counsellor
- Laboratory/Research Manager
- Market Researcher
- Psychiatric Rehabilitation Worker
- Public Relations Specialist
- Psychologist Assistant

"When I graduated I was hired as a program coordinator for a youth centre. Shortly after that I entered a Masters of Arts in Counselling program, and I will soon be a registered clinical counsellor. This is something I never imagined saying about myself. It all started by saying "yes" to the bachelor's program at Douglas."

- Alicia Enreli, Bachelor of Arts in Applied Psychology grad

BACHELOR OF ARTS, HONOURS

If graduate school or taking part in intensive research is part of your future plans, the Bachelor of Arts in Applied Psychology – Honours program is for you. The program incorporates a research thesis that gives you the opportunity to develop and carry out supervised, independent research. You'll also get other hands-on experience in the field, lab and through volunteering with the Douglas Psychology Society.

During your third and fourth years, you'll focus on at least one of six concentrations where psychology is typically applied in the workplace: Pre-counselling, Psychosocial Rehabilitation (includes practicum), Disability and Applied Behaviour Analysis, Forensic/Criminology, Applied Theory and Research or Leadership and Management.

EXPERIENTIAL LEARNING

- Field experience (45 hours)
- Practice with psychology computer tools
- Volunteering with the Douglas Psychology Society
- Lab experience
- Complete original research project

FEATURED COURSES

- Child Behavior and Development
- Adolescent Psychology
- Psychology and Law
- History and Philosophy of Modern Psychology

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Behaviour Analyst/Consultant
- Clinical Supervisor
- Counsellor (Registered Clinical, Family, School, Corrections, Vocational)
- Human Resources Manager
- Industrial/Organizational Psychologist
- Lawyer
- Mental Health and Wellness Consultant
- Music Therapist
- Nurse (Psychiatric, etc.)
- Occupational Therapist
- Physician (Psychiatrist, etc.)
- Post-secondary instructor
- Psychometrist
- Psychotherapist
- Registered Psychologist (Clinical, School, etc.)
- Research Associate/Scientist
- Teacher (Elementary/Secondary)
- Trauma Specialist

"The Honours program allowed me to focus on forensics as well as participate in a research project, all with the individualized attention that Douglas offers. With their guidance, I felt very prepared to enter the workforce and apply for graduate school."

- Mackenzie Heatherington, Ministry of Children and Family Development Worker

GRADUATE DIPLOMA

Are you a mental-health practitioner looking to upgrade your skills? The Graduate Diploma in Psychosocial Rehabilitation is a one-year, part-time program that will prepare you for the challenging and rewarding field of recovery-based mental health services. This is the only program of its kind in Western Canada.

The program consists of four courses that are offered online in real time, plus an additional practicum course, giving you the specialized knowledge and skills needed to work as a Certified Psychiatric Rehabilitation Practitioner (CPRP).

Upon completion of this graduate diploma, you'll be eligible to write the Certified Psychiatric Rehabilitation Practitioners (CPRP) exam, recognized throughout Canada and the U.S.

Please note that you must have a bachelor's degree in order to take this program.

EXPERIENTIAL LEARNING

- Practicum

FEATURED COURSES

- Psychosocial Rehabilitation and recovery
- Mental Health Services and Systems: History and Trends
- Psychosocial Rehabilitation Practitioner Competencies
- Psychosocial Rehabilitation: Best and Promising Practices

CAREER OPPORTUNITIES

- Community Mental Health Worker
- Recreation Therapist
- Occupational Therapist
- Program Manager — Community Health Programs
- Patient Care Coordinator
- Support Worker
- Specialist, Wellness and Recovery
- Social Worker
- Rehabilitation Consultant/Counsellor

- Mental Health Worker, Assisted Living

“As I navigated through each course in the program, I found myself appreciating the holistic approaches enforced through research and evidence-based practices. I became a more reflective practitioner and can now truly focus on client-centred approaches within my work.”

- Lakshmi Nair, Graduate Diploma in Psychosocial Rehabilitation grad

POST-DEGREE DIPLOMA

Do you have a bachelor's degree and want to move into a career in sales? The one-year Post-Degree Diploma in Sales gives you broad exposure to sales and marketing from technical, creative and management perspectives.

You'll receive training in sales management, customer relationship management (CRM) systems and social media management. You'll also become adept in tracking sales success with data and metrics.

The program includes sales simulations and projects in the business world. Graduate with the skills you need to take on a professional career in sales.

EXPERIENTIAL LEARNING

- Sales simulations
- Optional work experience or practicum placement
- Business Internship Program eligible

FEATURED COURSES

- E-Marketing
- Sales Management
- Customer Relationship Management
- Buyer Behaviour

CAREER OPPORTUNITIES

- Account Manager
- Advertising Creative Director
- Advertising Manager
- Business Development
- Client Services
- Corporate Sales Manager
- Inside Sales Representative
- International Sales Coordinator
- Lead Generator

- Sales and Marketing Specialist
- Sales Consultant or Sales Manager

BACHELOR'S DEGREE

Advocate for social justice and help people resolve problems in their everyday lives. The Bachelor of Social Work will give you the social-work skills and knowledge to take on roles at non-profit community organizations, child welfare agencies, residential and health-care programs, and many other settings.

Learn how to work one-on-one with vulnerable children and adults, families in need of assistance, seniors, people with disabilities, people who struggle with substance misuse or mental health problems, refugees and other clients to identify and achieve goals for a better quality of life.

Graduates are eligible to write the licensure exam administered by the BC College of Social Workers to become registered social workers in B.C.

EXPERIENTIAL LEARNING

- Practicum

FEATURED COURSES

- Social Work with Aboriginal People
- Mental Health
- Child Welfare
- Counselling: Theory and Practice II

CAREER OPPORTUNITIES

- Addiction Social Worker
- Case Management Consultant - Social Work
- Case Manager/Intake Worker
- Case Work Consultant - Social Work
- Child Welfare/Foster Care Social Worker
- Geriatric Social Worker
- Clinical Social Worker
- Community Facilitator
- Crisis Intervention Worker
- Mental Health Worker

“I want to empower individuals and help them realize they have the capacity to develop their skills and abilities to overcome their challenges. Specifically, I want to work with Filipinx youth and their families. I know this is a pressing issue in our

community, and I want to help.”

- Josh Rasalan, Bachelor of Social Work graduate

ASSOCIATE OF ARTS DEGREE

Explore and discuss cultural diversity, social inequality and social change and learn about many aspects of society with the Associate of Arts Degree in Sociology.

You'll develop essential skills in critical thinking, analysis of social diversity, research design, and data analysis and interpretation, important for careers in the public and private sectors. You'll acquire an understanding of the complexity of social life by focusing on human interaction, and organizational and group dynamics.

This credential can also lead into a sociology major or minor bachelor of arts degree program at a university. In most cases, an associate degree will allow you to enter the third year of a four-year bachelor's degree program. To make sure your courses transfer, use the BC Transfer Guide as it has all the up-to-date information you'll need to plan your education.

EXPERIENTIAL LEARNING

- Co-op eligible
- Guest speakers
- Volunteer research opportunities with faculty

FEATURED COURSES

- Race and Ethnicity
- Women in Society
- Families & Social Change
- The Sociology of Popular Culture

CAREER OPPORTUNITIES

With further education, this credential is a step towards careers such as:

- Index and Reference Assistant
- Legislative Assistant
- Outreach Worker in Community Services
- Probation/Correctional Officer
- Recreation Worker
- Research Assistant

- Street/Youth Outreach Worker
- Volunteer Coordinator
- Youth Care Worker
- Youth Settlement Worker
- Crisis Intervention Services Worker
- Community Relations Worker

"This program gives you the tools to analyze and think critically about our world. I also worked as a student research assistant on two amazing projects, collaborated in peer-reviewed publications, and wrote a chapter for a sociological book. The professors went above and beyond to see me thrive."

- Ana Brito, Associate of Arts in Sociology grad

DIPLOMA

If you want an active career with numerous career pathways, start with a Diploma in Sport Science. You'll gain an expert understanding of exercise physiology, nutrition, biomechanics, motor learning, sport psychology and more.

This interdisciplinary program provides flexibility in career direction, with

options to specialize in kinesiology or health and recreation. You can also transfer your credits into the Douglas College Bachelor of Physical Education and Coaching or into a related degree program at a university.

Put your skills to work by joining the optional Co-operative Education Program, which alternates semesters of study with paid, full-time work in your field. You'll earn money while gaining experience, building your resume and getting an employer reference, all before you graduate.

EXPERIENTIAL LEARNING

- Guest speakers
- Lab experience
- Field observation

FEATURED COURSES

- Conditioning for Sport and Physical Activity
- Biomechanics
- Motor Skill Acquisition
- Socio-cultural aspects of Health and the Body

CAREER OPPORTUNITIES

- Activity Worker

- Children's Summer Camp Counsellor
- Group Fitness Instructor
- Health and Wellness Promotion Coordinator
- Physiotherapy Assistant
- Recreational Leader
- Rehabilitation Assistant
- Special Constable
- Sports Official
- Student Assistant (Athletics Dept)

"I loved everything about this program: the instructors, program culture, professor network, peers, curriculum, supportive learning environment, and the one-on-one genuine care from pros."

- Olivia Cesaretti, Kinesiologist and Coach

DIPLOMA

Get the hands-on, intensive training you need to succeed in the fast-paced entertainment industry. If you are creative and disciplined, enjoy technical

challenges, and like to work as part of a team, the Diploma in Stagecraft and Event Technology is for you.

This two-year program combines academics and practical training in stage lighting, audio techniques, set painting, set design, computer-assisted drafting, stage management, stagecraft for film/tv and history of theatre. During the program, you'll be immersed in a dynamic, fast-paced, professional environment, with exposure to production pressures equal to those in the entertainment industry.

Upon graduation, you may find work in traditional theatre, opera, film and TV, sales and service companies, cruise ships, concert touring, events and festivals, museums and more.

EXPERIENTIAL LEARNING

- Practical experience designing and constructing sets

FEATURED COURSES

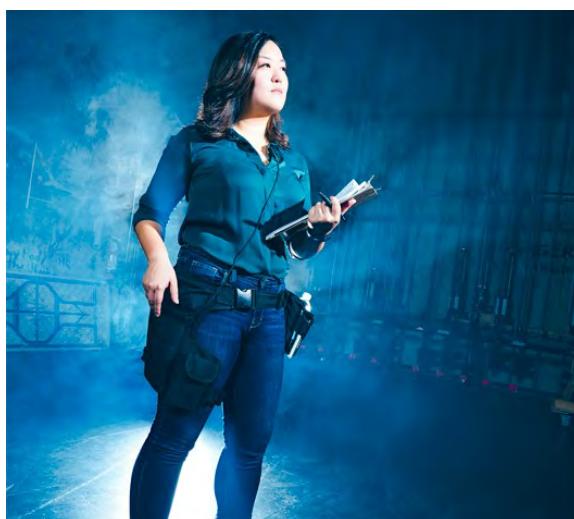

- Drafting for Stage
- Stage Lighting
- Production Techniques
- Set Painting

CAREER OPPORTUNITIES

- Production Assistant
- Stage Manager
- Lighting Designer
- Sound Designer
- Set Painter
- Set Designer

“The Stagecraft program taught me a bit of everything. I understand the planning and work that goes into all areas on set. That really helps me when it comes to dealing with different departments in my industry.”

- Nikita Cameron, Filmmaker

POST-DEGREE DIPLOMA

Do you have a bachelor's degree and are interested in a career in supply chain management? The Post-Degree Diploma in Supply Chain Management will prepare you for roles in purchasing/procurement, warehousing, transportation, production/quality and inventory planning.

The program is designed to suit all bachelors' degree holders regardless of concentration, and will provide internationally relevant skills. You'll also gain the preparatory knowledge needed to attain the industry certifications APICS – CPIM and Lean Six Sigma.

EXPERIENTIAL LEARNING

- Business Internship Program eligible

FEATURED COURSES

- Global Supply Chain Management
- Operations Management
- Supply Chain Planning
- Supply Materials Management

CAREER OPPORTUNITIES

- Warehouse Manager
- Distribution Manager
- Production Plant Manager
- Inventory Planner or Manager
- Logistics Supervisor

CERTIFICATE

Develop the knowledge and skills for teaching English as an additional language with the four-month Certificate in Teaching English as a Second Language. Courses are offered in a hybrid format, meaning some are online and some are in person, giving you more flexibility with your education.

You'll gain theoretical and practical knowledge including designing tutorials, delivering courses and managing a classroom. With the program's 30-hour teaching and tutoring practicum, you'll graduate with experience in the field.

An optional one-week practicum placement at the Technological University of Aguascalientes in Mexico is available to full-time students in both Winter and Summer 2024. Partial funding is available.

By the end of your studies, you'll be ready to apply for the **TESL Canada Standard Level One certification** (<https://www.tesl.ca/certification/tesl-canada-professional-certification/35-tesl-canada-professional-certification.html>) (if you have a bachelor's degree). This certification is an important step in being able to teach English as an additional language in Canada and can make you a competitive candidate if you choose to teach abroad.

EXPERIENTIAL LEARNING

- 30-hour teaching and tutoring practicum
- Optional one-week practicum placement in Mexico

FEATURED COURSES

- Teaching English Listening, Speaking, and Pronunciation to Adult Speakers of Other Languages
- Teaching English Reading, Vocabulary, and Writing to Adult Speakers of Other Languages
- Tutoring of English to Adult Speakers of Other Languages

CAREER OPPORTUNITIES

- Public school teaching
- Private school teaching
- Private English tutor

DIPLOMA

Prepare for a career in the performing arts with the two-year Diploma in Theatre. You'll receive professional training and education in five key areas: voice and speech, movement, acting, theatre history and production.

During your first year of study you'll also gain valuable experience working behind the scenes for four different productions, taking on positions including production assistant, box office, opening night reception setup, and publicity and promotion.

In year two, you'll get the opportunity to act in one major production each semester, applying the theory you learned in year one. You'll work with professional directors, set designers and lighting specialists from the arts community, and perform in the modern, 350-seat Laura C. Muir Performing Arts Theatre as well as our black-box studio theatre.

Transfer your credits in a degree program at universities in Canada and abroad, such as UBC, SFU, University of Alberta, Circle in the Square (New York), Neighborhood Playhouse (New York), University of Wales (UK) and more.

EXPERIENTIAL LEARNING

- Workshops
- Tutorials
- Practice in movement and voice techniques
- Public performances
- Small group exercises

FEATURED COURSES

- Acting for the Stage

- History of Theatre
- Creative Movement for the Stage
- Play Production

CAREER OPPORTUNITIES

- Actor
- Arts Administrator
- Box Office Manager
- Broadcaster
- Business Manager
- Casting Agent
- Comedian
- Director
- Event Planner
- Film/TV Crew
- Playwright
- Production Assistant
- Producer

“I've worked in the film and television industry as a production assistant on shows including *The X-Files*, *The Good Doctor*, *Supernatural* and *Van Helsing*. Currently, I'm a trainee assistant director on an American television drama series, *Siren*. My Theatre education at Douglas prepared me for this role.”

- Faedra Mirhasemy, Diploma in Theatre grad

BACHELOR'S DEGREE

Become a Recreational Therapist and help people live full, independent lives. The Bachelor of Arts Degree in Therapeutic Recreation will teach you how to use leisure activities – arts and crafts, dance, music, sports, games, aquatics and group outings – to improve the health, well-being and quality of life for seniors and people living with disabilities or illnesses.

Graduate prepared to work with seniors in the growing field of gerontology, as well as with clients of all ages in settings including long-term care homes, health-care facilities, and mental health and addiction settings.

You'll also graduate eligible to write the National Council for Therapeutic Recreation certification exam to become a Certified Therapeutic Recreation Specialist (CTRS).

EXPERIENTIAL LEARNING

- Practicum

FEATURED COURSES

- Assessment and Program Planning in Therapeutic Recreation
- Managing Stress: Principles and Strategies for Health Promotion
- Valuing Diversity: Therapeutic Recreation and Mental Health
- Counselling: Theory and Practice in Therapeutic Recreation and Health Promotion

CAREER OPPORTUNITIES

- Community Development Officer
- Corporate Recreation Manager
- Counsellor - Eating Disorders
- Manager, Physical Activity Program
- Provincial Events Lead
- Recreation & Sports Administrator
- Recreation Assistant/Therapist
- Recreation Therapist
- Recreation Programmer
- Recreation & Sports Administrator
- Wellness Manager

“The program was an incredible experience. I learned new skills for how to work with people of all ages and abilities. It can get very intense at times as

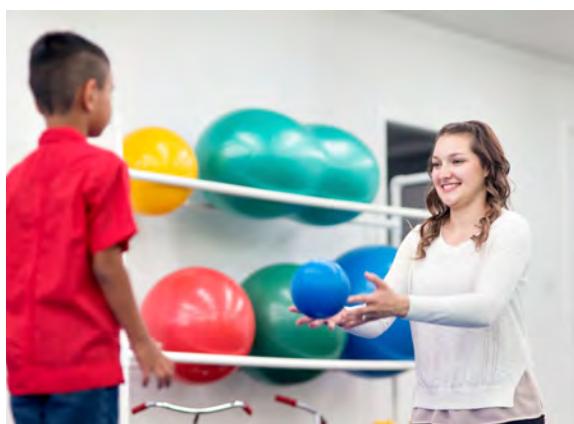

it's very hands-on, but when you are passionate about something, it makes it easier to put everything you have into it."

- Kelsey Merritt, Bachelor of Arts in Therapeutic Recreation grad

DIPLOMA

Make a positive difference in the lives of people facing disabilities, injuries, social isolation and other challenges with a career in the field of recreational therapy.

The Diploma in Therapeutic Recreation will prepare you to assess, plan, implement and evaluate a wide range of leisure services for people with barriers to participation. Learn how to integrate arts and crafts, dance, music, sports, games, aquatics and more into your work, as well as lead group outings. Two semesters of practicum placements in healthcare or social service settings will give you the opportunity to practice what you've learned in the classroom.

EXPERIENTIAL LEARNING

- Two practicums

FEATURED COURSES

- Recreation Leadership in Small Groups
- Communication Skills for Recreation and Health Promotion Professionals
- Valuing Diversity: Therapeutic Recreation and Mental Health
- Older Adulthood: Psychosocial Issues and Interventions

CAREER OPPORTUNITIES

- Activity Worker/Recreation Programmer
- Client and Volunteers Assistant
- Community Recreation Coordinator
- Health Promotion Educator
- Client and Volunteers Assistant
- Program Planner
- Recreation Leader/Assistant
- Social Rehabilitation Worker
- Therapist Assistant
- Youth Outreach Worker
- Wellness Assistant

“This program is truly amazing. Between the courses and an incredible practicum experience I

feel more prepared for my future than I could have ever imagined. I am excited to learn from those whose passion equals mine and to become integrated in a learning and hands-on practicum environment.”

- Jessica Zilney, Diploma in Therapeutic Recreation grad

DIPLOMA

Become a valuable member of the veterinary medical team with the Diploma in Veterinary Technology. You'll get both theoretical and practical training in medical and surgical nursing, anesthesia, anatomy and physiology, radiography, dentistry, laboratory procedures, nutrition, pharmacology, workplace communications and more.

You'll get hands-on experience working with small and large animals on campus or at off-site facilities including veterinary clinics, stables, farms and animal care centres.

Upon graduation, you'll be eligible to write the Veterinary Technician National Examination (VTNE). Once you have passed the exam, you can register in Canada and in many parts of the United States as a Registered Veterinary Technologist.

EXPERIENTIAL LEARNING

- Co-op eligible
- Multiple practicums
- Off-campus field work
- Placements in veterinary facilities and farms
- Field trips
- Working with live animals in labs and off-campus
- Weekly field work
- Volunteer experiences

FEATURED COURSES

- Veterinary Nursing
- Veterinary Diseases
- Veterinary Pharmacology
- Veterinary Administrative Procedures

CAREER OPPORTUNITIES

- Veterinarian Assistant
- Animal Operating Room Attendant
- Laboratory Animals/Vet Lab Technician
- Registered veterinary technician (RVT)

- Animal Care Technologist
- Veterinary Technologist
- Animal Health Technician
- Animal Caretaker
- Animal Services Worker
- Zookeeper
- Receiving Barn Custodian

DIPLOMA

Help improve the lives of young offenders or at-risk youth through the Diploma in Youth Justice. Our program - which combines criminology and child and youth care courses - is unique in B.C.

You'll study behaviour theory, public policy, skill development and professional practice, and put your skills to work during two practicum placements.

Graduates can expect to find employment in social-service, government, health, school and justice-system settings. Our graduates are in high demand due to their job-ready skills, with many employers offering practicum placements that often lead to permanent positions.

EXPERIENTIAL LEARNING

- Two practicum placements

FEATURED COURSES

- Understanding Aboriginal Perspectives and Experiences
- Psychological Explanations of Criminal Behaviour
- Counselling and Relationship Building With Children and Youth
- Mental Health in Childhood and Adolescence

CAREER OPPORTUNITIES

- Aboriginal Youth Residential Worker
- Child & Youth Care Worker
- Childcare Worker
- Community Living Outreach Worker
- Community Facilitator
- Community Justice Worker
- Community Support Services
- Crisis Intervention Worker
- Family & Youth Support Worker
- Judicial Administrative Assistant
- Social Advocate

“My work is primarily supporting 13–18 year old's in

Ministry care in the process of self-awareness. I help them achieve their personal goals. Youth Justice shaped me into what I am. I truly did not know how great it would be. ”

- Gloria Shen, Diploma in Youth Justice grad

Student Life

If you're having a tough time with your classes, we can help.

Visit the Learning Centre, where you'll be matched with a peer tutor to improve your academic and writing skills and understanding of course concepts, as well as reading, study, math and computer skills. They also offer workshops throughout the school year as well as downloadable documents covering a variety of topics from presentation skills to taking notes in class.

You can also register for our Student Success 1100 class, which will help you achieve better marks, give you more motivation to study and make your college experience more satisfying overall.

Douglas also offers geography, mathematics and psychology labs, providing the dedicated help you need in these areas.

Next Steps

Apply Now: <https://www.douglascollege.ca/future-students/apply-douglas/canadian-students>

Ready to apply to Douglas? Our website outlines how to get ready, and then links you to Apply BC, the common application system for most post-secondary schools in British Columbia. Once your application has been accepted we'll email you your student ID number and tell you what to do next.

NOT QUITE READY TO APPLY?

Choosing your post-secondary school is a big decision. We encourage you to ask questions, and our Student Advisors are here to help. They can assist you in choosing a program, guide you through the application process and answer other questions you might have. Speak with a Student Advisor today (https://www.douglascollege.ca/future-students/explore-douglas/future-students-office/contact-future-students-office?utm_campaign=mco-domestic&utm_medium=referral&utm_source=cvb).

Learn more about applying: https://www.douglascollege.ca/future-students/apply-douglas/domestic-students?utm_campaign=mco-domestic&utm_medium=referral&utm_source=cvb

If you need help paying for college you aren't alone. Our Student Success Advisors in Enrolment Services are here to guide you through the many ways you may be eligible to receive financial assistance, such as loans, grants, scholarships, bursaries or awards.

Additional funding options may also be available if you are an Indigenous student, a former youth in care, a student with a disability or an adult student needing to upgrade.

ENTRANCE SCHOLARSHIPS & AWARDS

If you're starting Douglas in the Fall semester and are coming from high school or another post-secondary institution, you may be eligible for an Entrance Scholarship or Award. These scholarships and awards recognize students who excel in their studies and contribute to their communities, including the promotion of social justice and Indigenous Truth and Reconciliation within their schools and/or communities.

The program offers a variety of one-time scholarships or awards of up to \$3,500 and renewable scholarships or awards of up to \$20,000, payable over four years.
